## BILL AND SUSIE FLOYD ASSURE LARGER ALUMNI HERD

As soon as Farm manager Bob Street turns a recent gift of \$500 from Bill (BA'58) and Susie Bryant (BA'57) Floyd into a junior herd sire and four heifer calves, we can truly say that we have an alumni herd—all holsteins, the big milk producers which make up almost all of Harding's dairy stock.

That "junior herd sire" tag is farm talk for a calf that is looking forward to being a bull. Street insists there is no connection between the idea of a young bull and Bill, but knowing Bill's keen sense of humor, we are sure he will get a good laugh out of such an imaginary association.

Our original jocular suggestion that alumni who couldn't afford to give cash to the college could send hay was really to encourage alumni or their parents who are farmers to make commodity contributions—a way of giving that has decided tax advantages. So far, all donations to this end have been in money, but with the herd now started, commodity gifts of

stock or any farm products are more likely to come in.

This contribution from Bill and Susie is very timely and we hope it will inspire others to add to the herd or feed for the herd. The gift did bring with it an extra dividend in that it made us prophetic when we slipped up and stated in the Alumni News that Bill had made the original hay gift which really came from his younger brother, Keith (BA'61).

You certainly remember the gifts of cash for two young heifers, Lcske and Anle, reported in the last issue of the news—gifts from Bill's classmates, Les and Anelle Parmenter (pictured in this issue).

Bill, who has been working on the PhD at Pennsylvania State, is now on the speech faculty at Tennessee Polytechnic Institute at Cookeville, Tenn.

### Are You Eligible?

Among the graduates of Hartwick College, Oneonta, N. Y., in the spring of '56, one found employment with EASTMAN KODAK.

Five years later, this company made a direct grant of \$2,400 to Hartwick College under their annual aid-to-education program.

The grant was based on the employment of ONE alumnus from Hartwick. At the end of five years of service, Kodak grants \$600 to a college for each year an employee spent at the institution from which he graduated. Since 1957, Hartwick College has received a total of \$9,400 in direct grants.

Does Harding have ONE or more alumni employed by Eastman Kodak? Notify your Alumni Office and check your supervisor.

## President's Corner

### More Alumni Donors Needed

With this column I conclude my second term as president of the Alumni Association. I have enjoyed my work and have become more than a little interested in ways and means of improving the effectiveness of the Alumni in serving the needs and interests of the college. I appreciate the opportunity to have served the Association.

As I review the most pressing needs of our organization I come to the conclusion inevitably that the over-riding issue is this: Will the Association be able to substantially increase the percentage of alumni who give annually? Most of our other needs are directly connected with this one.

During the past four years we have had a significant yearly increase in the percentage of alumni who give. The picture, therefore, is not discouraging. But we need to push the percentage up beyond the approximately 23 per cent of last year to 50 per cent and above. This can be done IF each of us will accept some responsibility for soliciting alumni in his own area. Will you do this? Volunteer to include someone else's gift with yours. This will especially need to be done if our next project is to succeed.

Plans for that project are going ahead. I hope that the next issue of the bulletin can include an architect's drawing of the proposed Alumni House and Center for Continuing Education.

What is the need for this building? It will be a multi-purpose building. There is no comparable facility in Arkansas for accommodations for educational conferences. It will attract favorable attention to the college because we will be able to entertain state and regional conferences of all kinds. It will be used for the annual Thanksgiving Lectureship—for guest housing and dinners, for Freedom Forums, and Christian Education conferences. It can be used for guests at commencement and at other times. Civic conferences can be ac-

## ☆ CHAPTER NEWS ☆

### Oklahoma City

Mrs. Doris Toldan, chapter secretary, reported a good meeting, May 3, at the Mayfair Church of Christ. A film from Harding was shown in addition to a taped recording by Dean Joseph Pryor.

The Pay-for-a-Day project was officially announced and several contributions received. The next scheduled meeting was set for Oct. 26. It will be a dinner meeting. An up-to-date list of Oklahoma City alumni has been received from the chapter secretary.

### Chicago

An area-wide meeting of alumni was held March 24 at the Stony Island Church of Christ. Some sixty-five or more were present, including a large number of high school students interested in Harding. Dr. Clifton Ganus and Dr. Joe Pryor were in Chicago attending the annual meeting of the North Central Association. Slides of Harding were shown and Dr. Ganus spoke. Refreshments were served following the program.

commodated when the center is not being used by the college. It will be a center for alumni when on campus.

A facility such as this is in use on the campus of at least four universities in our nation, and they are in continuous use by all sorts of adult education groups. It will house the offices of the Alumni Association, banquet rooms, conference rooms and snack shop.

In addition to the above purposes I hope that it will furnish the needed incentive to increase alumni giving to above the 50 per cent level. Alumni suggestions for the building are encouraged.

## Further Report On Needs And Plans Of The Elders

Ken and Iris Elder and children show how practical their new camper is for their African work.

Remember our plea in January for assistance for Ken (BA'49) and Iris Merritt (BA'42) Elder in providing them with traveling living quarters for more efficient missionary service in Africa?

The plea in Alumni News related only to efforts of Dr. Benson and Board member Jim Bill McInteer to raise funds for a Chevrolet pickup truck and a camper attachment which is appropriately called a "motel." This report includes other parts objectives before coming home for their of their needs and plans. Ken set up five present visit:

- 1) Transportation funds for immediate needs; 2) Find a church to accept the oversight of their work; 3) Get personal support and a working fund; 4) Raise money to clear the debt incurred by borrowing funds for a round-trip ticket; and 5) Return to Africa better prepared to do the work of the Lord.

Most of these things have been accomplished to an optimistic degree. In a visit to the campus a few days ago, Bro. Elder enumerated these remaining needs: \$250 more on a continuing monthly basis for support and work funds, \$2,323.50 to pay off existing loan and approximately \$1,500 to pay import duty on the truck and camper. (The import duty is a real saving as the truck and camper cost \$5,233 less in U.S.A., a saving of \$3,200 after allowance for freight and tariff.)

Individuals and congregations interested in having fellowship in this work may send checks and inquiries to Ken Elder Travel Fund, c/o West Side Church of Christ, 709 West Arch Ave., Searcy, Ark., the sponsoring congregation. Ken and Iris express special thanks for help already received.

## Sally is a Busy Girl

After reading any one of the interesting travelogue style duplicated letters from Sally Rogers (BA'61) who is teaching school in Fulda, Germany, statesiders begin to feel sorry for themselves for missing the joyful experiences she describes in her own free-flowing literary style.

Sally not only has the rare rhetorical knack of making her readers' vicarious experiences seem real but also is able to make any hardships she encounters seem like highly enjoyable and pleasant episodes. A good example was the occasion of a recent trip to Paris when she and another teacher moved from a swank hotel into a third-floor walk-up Left Bank room and made the excitement of it sound more joyful than the fancy place.

The attitude of this dedicated young Christian indicates that she does enjoy every waking moment of her vividly active life. Late last summer she and Barbara Harris (BA'59) signed up for teaching in American schools in Germany for the express purpose of working for the church while paying their own way. Separated from the beginning due to tangled red tape, both immediately became active in the work of the Lord.

We are not sure about Barbara's schedule but we do know that Sally located Christians in the area and soon had them inspired into worshipping regularly together under the guidance of male talent that she was able to locate. Evidence that her summer in the Lord's service will be an active one are the various addresses she listed in her newsletter so her flow of mail from friends would reach her without interruption.

## Class of '37 -- What They Are Doing Now

By the time you read this the 1962 Alumni Day and Graduation Day activities will be in the past. These days were and will continue to be big and important in the eyes of the Class of '37—the honored 25-year class.

The Class, too, will remain big in the eyes of Harding because six present and previous faculty members were graduated on the Searcy campus on that memorable occasion 25 years ago. Three are still developing better Christians and citizens for the Alma Mater—Dean Joseph E. Pryor who was graduated with both the B.S. and B.A. degrees, James D. Bales, B.A., and W. Leslie Burke, B.A.

Former faculty members, each earning the B.A. degree, were Edwin Hughes, clinical psychologist at the Veterans Administration Hospital in Little Rock; Charles Pitner, whose mathematics teaching career was ended by death last December; and his wife, Martha, who is currently head counsellor at Searcy High School.

One Class member is a college president—George DeHoff at Magic Valley. Two (perhaps more) are active in foreign missions, Alvin Hobby, who is in U.S.A. to take nurse's training along with his wife in order to serve better when they return to Northern Rhodesia, and Ethel Fowler Pierce who is helping her husband in African mission work.

Dr. Charles Paine and his wife, Mary Holbrook Paine, whose daughter Vicki was already a student at Harding, are now located in Searcy where he is associated with two (next month, three) other alumni as physicians at Searcy Clinic.
