The Greek plot involves Antigone, daughter of Oedipus, who must honor her dead brother Polynices with burial or his spirit will wander forever. King Creon, Antigone's uncle, ordains that his body is to be left unburied carrion for dogs and vultures.

Jean Anouilh, modern French playwright, used the same theme to present "Antigone" as the French during World War II when France was in the clutches of German tyranny, Lewis Galantiere has rewritten the play for modern America and with this theme advocates a discerning of what is Caesar's and what is God's.

Holland described the play as "stark, dramatic and powerful." The cast will be attired in tuxedos and formal gowns with a Greek influence. Major emphasis will be placed on acting with little music or sound effects. Sets will be simple with complicated lighting.

The cast, as announced by Holland, includes Dalton Eddleman, Chorus; Erlene Laney, Antigone; Anna Sue Hinds, Nurse; Julie Huddleston, Ismene; David Lee, Haemon; Tom Reppart, Creon;

"Know ye not that ye are the temple of God and that the Spirit dwelleth in vou."

Christian education does not subscribe to the philosophy that spiritual and intellectual development are detrimental to physical development nor does it support the idea that improvement of the physical body hinders spiritual and intellectual achievement. To the contrary, the mental and spiritual development gained through classes and religious activities contributes to proper attitudes and actions on the athletic field. Likewise, physical activities, conducted by Christian teachers and coaches contribute to spiritual and mental development while at the same time cultivating the body that the mind is going to govern. Let us continue to strive for balance and moderation in all things.
