November 1966 Financial Report

The 43rd Annual Harding College Lectureship is now history.

If you were able to be here I do not need to tell you of the progress that has and is being made. All of you will receive a letter from me with a brief resume of our progress, so it will not be necessary to go into detail now. We have the largest student body in our history. There are more applications than we can accept, and as our student body grows we will need to add more faculty in every area and more laboratories and classrooms and dormitory space and all of this takes money.

I have just talked to Buford Tucker, our Alumni Association Executive Secretary, and when I noticed that the \$87,737.59 was given by only 18.2% of us I was disturbed.

Dormitories are built with government loans to be paid back through room rent, but we must raise the money to furnish these rooms. The government is giving one-third of the cost of the new Science Building, but the two-thirds must be raised and also money to complete the equipping of the laboratories. It will be wonderful to have the new building, but it still costs!

This situation is not unique to Harding. Every school across the country has the job of finding additional money for operation cost and for expansion. One thing that is asked Dr. Ganus is, "Just what are your alumni doing?" If he has to say that only 18% of us gave last year, the prospective contributor is made to wonder whether it is wise to give to an institution whose

alumni do not value its work and believe in it enough to give to its support. I know you believe in Harding as I do. I know you love this institution and appreciate the work that is being done here. Then let us all get behind her with our thoughts, our prayers and our money. Let each of us make up his mind that this year we are going to make the Alumni Association 100% in contributing to Harding College. Then let each of us sit down right now, if we have not done so already, and make out that check to Harding College or sign that pledge and send it in. Let each of us be a committee of one to work to encourage others to do as we have done so that if we do not reach that 100% it will not be my fault.

Again I say these figures are disturbing. I cannot believe that more of us are not vitally interested in Harding and the great work it is doing. Yet by our failure to give our support we are saying that we don't care. Perhaps you did not give because we did not make a special drive for new pledges and new gifts and you were expecting us to do so. If this is so won't you please take this as a special appeal to each of you to make your contribution this year. We would like for you to be one of the Harding Hundred Club. You do this by giving at least \$100 a year to Harding. Some of us can't give that much but each of us can give something if only a dollar. Every dollar counts. Each dollar means you care about Harding and that you believe in the great work done here.

Jack Wood Sears, President

Alumni Giving for 1965-66
