MINUTES

November 3, 1953

The regularly scheduled meeting of the Executive Council of the Student Association was held in the Seminar Room of the Library on Tuesday, November 3, 1953. Present with us for the first time were three new members: Bob Gillam, newly elected vice-president; Buddy Myer, graduate school representative; and Barbara Jones, high school representative.

Buddy Myer led the opening prayer. The new vice-president was welcomed. Business discussed was as follows:

1. Since the constitution calls for two meetings of the student body a year, it was decided that one should be held in the near future if possible. All were of the opinion that chapel would be the best time to have it so Norman said that he would see Dr. Lewis about it.

2. Two letters addressed to the Student Council were taken up next. The first, from the National Cotton Council of America, wanted the students to select some girl to enter the "Maid of Cotton" contest. The second, from the Japanese International Christian University, wanted a donation to their scholarship fund. Both were considered out of order.

3. Attention was called to the fact that there are new records on the juke box. The juke box committee never could find a time to get together so Bob and Brother Fulbright chose the new records.

4. The sidewalk from West Dorm to the Administration Building and the bell in the Music Building have been approved. There will also be a bell put in the gym.

5. Faculty committee reports were made. The Executive committee made the new ruling of chapel cuts. The Buildings and Grounds Committee decided to get more waste paper cans for the campus.

6. It was brought up that quite a few students still want the library to stay open on Saturday night. Brother Pitner mentioned the fact that our library stays open now more than most other college libraries. It was suggested that we find out the definite reasons for it being closed so that we might explain the reasons to those who want it open.

7. Someone asked if the money that is allotted to the Student Council would be available to send flowers to the student’s family in which there is a death. Norman said that he would see Dr. Benson about this.

The meeting was dismissed.

Respectfully submitted,

Nancy McDaniel
