Nineteen hundred and thirty-four, and the world is still howling hard times.

It is always a tragedy when circumstances prevent a man from expressing the best that is in him. That fact certainly does not dim the glory of the man who expresses himself in spite of circumstances.

The young men of our cation that went out to work in the years preceding the war had a feeling of prosperity and extravagant living that they were not willing to give up suddenly. Higher education was out of their reach and high school upon the country, it threw many thousands of them out of work. They were not allowed on petty charity. As time rolled on, we find that this was the case until about the time that the depression struck. Today, there are not a few that the hand of crime that includes kidnapping, robbery, burglary, and other forms of racketeering. didn't think that the motion pictures, newspapers and books would make such a change in the college going person.

That game has gone to Tech last week because they are on the top now. They were not on the top in the first year. That was a pile. They played hard against that year. The boys will be there next year. So we will be better.

Well, do you think of professor and student arrangement & anti-saloon program? It was a good one, and I think it was an important feature. But, it will be at the future. At least we hardly expect to see it again.
