Baseball Camp Begin

The 1934 baseball ticket sales campaign got under way Tuesday morning. Tickets for the upcoming forty-five students bought tickets during the first hour. At the present time, the esmele has been active ever since, and several students have bought tickets. This year, however, only one who has not yet bought. The tickets for the home games, are on sale for forty cents to students and seventy.Compiler to all others. To each student, to see the games at least ten cents a piece and move him about the field in its various series. Each student holds his season ticket to see the games at the games to all practice and non-game

Manager S. P. Durance urges all who have yet bought tickets to do so as soon as possible and to encourage their friends to do likewise in order to win the championship of the Arkansas collegiate league.

Campus Improvements

Under the direct supervision of the Ju Go Ju's Committee needed improvements have been made on the Campus. Boys have cooperated in cleaning up the sidewalks with the hardy and heavy work.

The fourth number of this year's season will be the operetta, "Light Opera," by Arthur Sullivan. Fifteen complete, colored tales of the sea, and the scene is in the far north.

The entire cast with Professor Roberton as its director and Mrs. Paulie Meek as stage manager will be put on the North State College stage April 25. The tally team has been set for this production. The music of this opera is exceptionally good, with choral numbers sung by the entire cast.

Dean Sears Leaves For Chicago To Finish Work

Dean L. C. Sears left Sunday for the University of Chicago where he expects to be in residence this summer to complete his work on his master's degree in the Spanish Language.

The spring term began March 13, but because of several severe flus Dean Sears has been confined to bed for about two weeks. It is expected that he will be able to enter later. Mrs. Sears plans to be at the school and the family is on the way.

Alumni Students Are Being Heartily Encouraged To Come

For the annual homecoming of the Alumni and old students during Commencement week are being made. One of the features of this week will be the revival of some of the old quartets. Dean Sears has already written to Noran Jones and O. S. Sander­

What then. The Alumni will present their team. But probably one of the most impor­

tive events during the week will be a baby show. All the old stu­
dents who have been living in Harding's home will be invited to bring their children. The show will be in the schoolroom between 2 and 3 P. M. It is expected that between 20 and 30 students will attend. There are two or more of the leading Quartets of the school present who have been invited to come and do a few songs. The show is in honor of the members of the class of 1925.

Campus Players Present Third Lyricon Number

The Harding College players presented their most popular play of the season, "Moonshine and Honey", in the third number of their plays, on Thursday, March 20 at 8 p. m. in Matthews Auditorium at 2 p. m.

The play was a three-act moun­

EXTRA CURRICULAR ACTIVITIES

What do we go to college for? It is a timely question which many of us would have a hard time answering. Judging from the look of extra-curricular activities, most of our student programs it seems that study is far from the leading attraction of college students.

Attraction is surely the proper word for students pouring over catalogues throughout the summer hunting for events with the most attractions or "added features."

It stands to reason that a little more hard study of some wholesome subject will be worth more to students later in life, at least, we would learn how better to apply ourselves to our tasks.

The hard working student, and he may not always be the type who makes the most noise? A truly great man is the one who will bend to a task, work were left undone the machine of life would be at a standstill. Be more like the star. When you reach the point where time is only made for what you do, you will be a great man.

Some of our students are thoughtless about the campus. Tons of dirt have been nursed furthering the growth of the grass and weeds. It is only those who are the most snail-like in their work who get the most done, It is the contrast between the two plants that will show a true spirit of cooperation and success.

Judging by the number of couples that can stand each other's company for four times a week, you will say that Cupid is doing a good business. But the truth is, however, maybe it is not so. Perhaps the majority of couples revealed that only one out of three college men and women can stand each other.

CARLIVAIERS ENJOY DAY ON MOUNTAIN
Knights Explore Points Most Interesting In Park

The Cavaliers celebrated the most beautiful day of the season by spending the day on Petit Jean. The weather was so ideal that some were hard to convince that it wasn’t April Fool’s Day—it didn’t even rain.

The Knights made a most complete tour of all the interesting points. The newly built CCC Club was of particular interest. The inside was thoroughly improved. Then, the group went to a pen in which a number of captured wild stallions, and, however, none cared for the long journey for an experience parade. They “just that kind of day.”

Near Cave was the selected place to add more to the enjoyment of the day. Of course Gallant Leroy Null was disappointed because there were no bears, Jimmie Frace, still eager for what of excitement, caught a snail, then returned to the campus to explain his heroics and record his triumph. Rourf Vaughn, Doro showing the extreme respect for the whims and fancies of ladys, draped through the woodland, with Ju Go Jus and period, reflect on the morale.

A picnic scene was thoroughly enjoyed by the ravenous adventurists—on the hills, with pike and mustache, pork and beans, bread and lemonade, and apples from the woods, after Keeper Knight Enterprise was the selected place. Some of the culinary equipment had been used in the care and serving of the meal. A trip to the Cedar Falls was the first plan for afternoon entertain ment. This was the most enjoyable for Commander Jack Hewitt's. As he finished in a place in which he could think. But, as every day, he was talking about the big fish he had caught and how neat it was to pull the little ones to me.
