Lambda Club gives Graduate Play

Presenting a student tragedy, the Lambda Club presented their annual spring production, a musical comedy, before an interested student body with one of the most interesting productions of the year, according to the campus dramatic society, Students' Theatre Foundation.

Depicting somewhat from the life of Thomas Jefferson, the play was performed in the fine arts building, and the cast and crew, including the Lambda members, were among the more than 300 students who participated in the production.

The play was directed by John D. Kirby, who portrayed the role of the President, and the lambdas were responsible for the direction of the play, which was presented in four acts.
