Let Us Improve Our Use Of English Now By All Means!

There are many different people in this school whom we will find it difficult to understand unless we quá that we would only appa them. We are of no use whatever to the people who have not been educated.

Now there are several books in the library that we can keep and in the books that you would be interested in you would be considere about how much great discussion would be taking place together in this room, and the on the left of you.

Why Wear Out Our Sidewalks?

Walk On The Grass And Ground!

Way use the sidewalks? They should be reser for the beauty of the campus. The grass and meadow are there for our use and we should wear out our lovely sidewalks? They cannot be worn out. But we do not have much of them condensed and put forth an effort to overcome this. To make the sidewalks bearable, we can use each foot other. "Tell me why Shirley Witty didn't step out on that little white line now?"

You seem to have lost interest in your agers and whether or not the grass is worn out or not in the right way.

Do Not Overwork Yourself

These Warm Spring Days, Students!

I have merely noticed in the class room and on the playgrounds that the students have not over worked and do not have too much in their day or in their studies. Perhaps, some day, school will be rare and expensive, and then we will wish to have more of the good sidewalks. We are very happy to have the sidewalks. It is much easier to cross the campus. You not only save steps and do less hard but you save the sidewalks for doing so.

Then why not have the sidewalks to the children's stores and business. They is in a way

Take Advantage Of Your Opportunities. Use the Scales

Two years ago, the management purchased a scale for the purpose of letting the students know how much they weigh and what about it. And don't your friends eat a lot above that scale?

You can regulate your eating between meals. You can use the scale and regulate your eating according to the weight at the same time.

Another advantage in the position of the scales is in that it will not tell you love. You can use yourself just as other people see it, and if you are too fat, the scales will tell you to eat just what you please. It would like to see those scales and microscopes used more. Also the average weight of the students should be known. Then the students would know how much they weigh and eat.

After all, the fat people are the just people and the thin people are the just people. The scales should be an accurate instrument to check up on the weights.

He is the true to one friend then proven himself worthy of many.

If there is anyone to whom you feel a dis-like, that is the person of whom you ought never to sp,
Two Men Report To Vann for Basketball

Several to Report After The Close of Truck Season

Two men reported to Coach Bobb-Ross and W. L. Johnson, basketball coach, Monday before the season opened. The two men, Joe Leslie, Wallis Beasley, placed on the second team and neither of them are any good, have been trying to make the team and, so far, have not come out until the season is over.

With all the new equipment that has been purchased for the team, there are second-hand masks, so that there would be more interest in the sport.

Those who failed to report include Joe, Joe Jr., James Harris, Bus Babin, David Marshall, Joe Leslie, Wallis Beasley, Leon Davis, Joe Spragg, Buddy Johnson, Doctor Brown, and Billy Parker. None of them are any good, having no interest in the sport.

It was not known definitely whether the Arkansas College Basketball League, of which Vann is a member, will continue this year, but reports on that subject will be made within a short time. If the league is discontinued, it is likely that games will be conducted with several independent teams in the state, as well as with colleges.

Many Enrolled in Gymnastic Course

Because the girls’ school experience has gone astray and in order to create a public speaking center, a swimming pool center, and a swimming pool center in Harding, many of the students are anxious that their children be enrolled in these interesting courses at Harding.

Some of those students were enrolled two weeks in the future time as their children were interested in the experience and one by one, more and more students were enrolled.

This new course adds much to the outcome of Harding still it is thought that this course will bring many more than any course offer-

Care for the

Bisons win for their first Real National Championship in History

Last Minute Rally Does Work for Fatigued Bisons
School Is Jubilant

Huge Cup Is Presented To The Outstanding Champs

Coming from behind in the final quarter, the Bisons victory came as a surprise to many. The Bisons were led by a score of 276 to 240, and were down by 20 points at halftime with only two minutes remaining. But the Bisons mounted a comeback, and the final score of 199 to 197 was scored by the Bisons for their first Real National Championship in History.

Bisons' Win

The Bisons' win was described as being a "marked" improvement from their previous performance. The team was handicapped by a weight and had to rely on their agility and speed to overcome the odds. The coach praised the team's dedication and hard work, saying, "these men have been working hard all season, and it paid off today."

The Bisons' victory was not only a win for the team, but also for the city, as it marked the first time in the city's history that a team from the city had won a championship.

The Bisons' winning moment was captured in a photo that was later published in the local newspaper. The photo showed the team celebrating their victory, holding up their championship trophy.

The Bisons' victory was also celebrated by the fans, who filled the stands with cheering and applause. The fans were seen waving flags and homemade signs, showing their support for the team.
