Honest Jim Says:

This beautiful spring weather makes us thankful for our very existence. It is true that we have to work hard to make enough money to buy the necessities of life in the last Wednesday morning.

Robert P. Hall, Secretary of the State Chamber of Commerce, has organized various units in different counties to encourage the investment of local initiative and enterprising.

Mr. Hall's talk was full of humor, and he was always ready to understand the underlying spirit of his speech, in the city of his advice, "If you want to succeed in life, work hard and go to college with the Chamber of Commerce.

MEET POSTPONED.

Although the dual track meet amongst Arkansas Tech and North Work was called off, because of rain and cold weather, it was held later in the season, probably May 4, according to Coach W. E. Berryhill.

Here’s to baseball.

Today finds a new baseball season opening in a new ball park. It matters little now if you were or were not in favor of the ball park. It is practically complete and will have the finishing touches added this week. The fact remains that the park is Harding’s greatest achievement in athletics since the school opened.

Baseball, previous to the building of the park, was Harding’s most outstanding sport and now there will be a new atmosphere to it. A baseball game isn’t a real baseball game unless it’s played inside a park. When bat meets ball in an open field the smash just travels and on and on but when the smash goes into something that throws the echo back to the stands, it gives the spectators a smattering of the thrill the player gets out of hitting it.

As we’re on the subject I want to say that baseball has every promise this year that it had last year. The new material is turning out some men who will win a good bit of recognition before the year is over. The latest additions, Junior Carrol and Frank Bottcher, hail from Van and according to “Prefessor” Roe they will be the best in the state, probably even a little better than the boys they were, large enough to hit a lot. Frank is an infirmer and Junior

“H” Club Declares Work Day Thursday

Because of the track meet which was scheduled for Saturday, a work day was declared by the “H” Club Thursday for the completion of the track and ball park. In spite of a slow down in all work, the workers continued their jobs on Thursday most of the needed work was completed.

Much time was spent in rolling the track, putting up boards and in finishing up small jobs such as the gates and minor track facilities. Work still lacking on the park is the levelling of the boards at the top, and the heating and painting of the fence.

The U. S. department of commerce estimates there are over 100,000 miles of highways in the world.
