Dear Clyde:

I know you must think odd getting a letter from me and truly it is, but I am writing for a specific purpose.

This past week I learned that one of our members here has an almost new 2-wheel camper trailer for sale. This trailer is a 1958 model of the "Abes Camper". It will sleep four with one full bed and the table converted into a bed. It is wired for either electric or bottle gas lights, with two closets, gas stove, sink and ice box. It is, of course, aluminum body painted white and green. I know when the trailer was purchased, and was in it at the time it was purchased, and I also know that it has been slept in only three nights since these people have had it.

Now the trailer cost \$900, but the fellow who has it told me to make the price is I wanted it, so I thought you might have some interest in something of this kind and if you did you could let me know and some arrangements might be made. The trailer is brand new, except the fact, of course, that these people have had it almost a year, but it has virtually never been moved, nor used. If you are interested, I thought you might even work out a partnership deal in buying the trailer, because I know we could get it for a very good price.

Sue and I are really looking forward to seeing Sara and Gay two weeks from now. We would surely like for you to come with them. That would make the visit complete, but we will be coming soon for the big event of Barbara's.

I figured it might be a long shot in connection with the trailer, but if you are interested at all, you can let me know.

Fraternally yours,

John Allen Chalk
