Riding Academy

Forced In Interest

of Horseback Riding

Students and Faculty Comprise

Academy: Head Group.

Horseback riding, under the con- 

trol of the Academy: Head Group, now offers additional

extra-curricular opportunities to

students interested in horseback

riding. The Academy was formed in

order to gain more organized and

structured participation opportunities in

horseback riding for students on the

campus.

The academy's mission is to provide

a safe and enjoyable environment

for riders of all skill levels to

participate in the sport of horseback

riding. Members are encouraged to

attend regular meetings and

participate in events hosted by the

academy.

In addition to the regular meetings,

members are also invited to attend

horseshow clinics, training sessions,

and other riding events. The academy

will work closely with the local horse

community to provide opportunities

for members to gain experience and

further their skills in horseback riding.

Members are expected to uphold the

ethics and values of the academy,

including respect for the horses and

other riders, as well as commitment to

attend regular meetings and

participate in events.

All interested students are

encouraged to join and become

part of the riding academy, and

members should attend the next

meeting to learn more about the

opportunities and upcoming events.
THE BISON

Official student newspaper, published weekly by the students of Harding College, Searcy, Arkansas, during the academic year.

Bison Office .................................................. 141 Men's Building Subscriptions ................................ $1.00 per year

Entered as second class matter August 14, 1939, at the post office, Searcy, Arkansas, under the Act of March 3, 1917.

TAKING ADVANTAGE OF OPPORTUNITIES

It would be well to mention the fact that many opportunities that are open to students in Harding, but it would be well to stress the importance of taking advantage of these opportunities.

Each year many boys and girls enroll in colleges and universities who have no idea of what kind of a student they will become. They are also expecting something in return for their boy or girl to get an education. They are looking for something to make them happy in the meantime...stop, look, think...to know whom we are and what we are going to do.

It is wholly up to the student then, to see that his parents money is not spent in vain, and to get the education that has been paid for.

If you have not heard of the Freshman at Harding, but it would be well to stress the importance of taking advantage of these opportunities.

In general writing home, the student will perhaps write an average of one letter a week. There is another point in favor of this...January 22, 1939

Students are urged to at least try this plan for learning, as it will follow the trend of this year.
