OPENING LYECEUM TO BE GIVEN ON THURSDAY NIGHT

"The Ghost Train." Three Act Mystery, To Be Presented By Campus Players in Auditorium.

Members of the Dramatic Club will present on Thursday evening, November 9, "Ghost Train," written by Arnold Ridley. This is the first drama presented this fall.

Those who have seen or heard the play consider it as funny and absorbing as the previous productions which were presented last year.

The play has some interesting points, such as the Mal-Brown character in a railroad station, representing the south, and the Native American character who is interpreted by the program director.

The Native American character in the play has some characteristics of the Native American tradition, which was not presented last year.

The play has some interesting twists, such as the "Mal-Brown" character, who represents the South, and the "Native American" character, who represents the Native American tradition.

WONDER

BY L. F. TIMMERMAN

One of the greatest achievements may be made by one in the arts, or the sciences, or in public service. For instance, do you feel you would rather be a member of the University of Arkansas's basketball team or a member of the faculty?

Today is a big day for many of you new students. Today you are receiving invitations to become members of the club. Today you are within the invitation to accept.

Today is a big day for many of you new students. Today you are receiving invitations to become members of the club. Today you are within the invitation to accept.

The next thing to consider, then, is which type of student you are.

Each student who is interested in art and the arts will be a desirable member. But they can't be chosen because it felt that you would be an asset.

TOUCH FOOTBALL CAPTAINS

It is interesting to note what a team is winning or losing, but if you don't know the captains of the team you are missing something very important, for the captains are the ones who are leading the team and who are the most important. The captains are elected by the team and are responsible for making the rules and strategies. It is important to know who the captains are, as they are the ones who are leading the team and who are the most important. LaS's Friday's period in leading a team, and his Razorbacks haven't lost a game yet. Hugh Rhodes is being pretty good luck with his Packets. They may not look so good on the books but he has a team full of determination.

Frank Lee is leading the pep boys, the Tigers. Flipped over by lack of weight and height, the academy bunch are playing well.

Buck Harris is leader of the Bears. This bunch is known as the scoring team in the circuit. Harris passes to Smothers, Hopper, and Green have been responsible for the big record.

VOLEYBALL

Due to cold weather the net was just a bit high in one of the other games and especially for chilly weather. More girls will be able to compete in this than is customary.

BOXING

Standing like a loose hay re-expected, but Friday night it was creeping out to see it fall down. Have you noticed any boys going around with black eyes or bruised places on their faces? Boxing is a little tough on the face, but if a pigeon can stand up and take it on the horns from head to heels, well, he is getting some exercise.

Les Friday's packets were spent mostly in teaching a person how to guard himself and in the meantime filled their stomachs. There were some who didn't come out for this sport the first time. They couldn't make it in account of the six weeks exam, but are expected to be out next Friday night.

SPORT FLASHES

Froening weather was unable to keep the football fans away from the big game last week. After being defeated three straight games the Academy team in saying they will get even when game hockey comes on... Let's wait and see, that's what they said about football... Beauty defeat Razorbacks to continue their winning streak.

Football Standings

Two weeks are gone and the Razorbacks are still leading the league with three wins and no defeat. Jack Lay is leading in total points scored with 30. Buck Harris is second with 29, and E. H. Hively is third with 18 points. Names:
