S.A. MEETING

November 10, 1964

The meeting was opened with a devotional.

Everyone was present.

The minutes were approved.

Hollis reported that the rules clarification committee had met and had made up a list of questions on the rules which are to be discussed with Mrs. Pickens. Dave requested that the final written list of the rules be submitted to him before Christmas vacation.

Hollis also reported that the information memos for long distance calls have been printed. A list of instructions will be drawn up and the memos will be placed in both the girls' and boys' dormitories by the telephones.

Eileen said that the committee on the Emerald Room project submitted the following suggestion for supervision: One boys' club and one girls' club would be in charge of the room each week. They could advertise their club by putting up their club emblem. The clubs would be responsible for having someone there to open the room, check out games and keeping the room neat during that week.

Dave will discuss this plan of supervision with Dr. Benson.

Dave said he had taken the FM to another repairman, and that if he could not do the job, the apparatus will be sent back to the company.

The floating academic trophies will be ordered soon.

The council decided to prepare about 200 Student Directories for sale, and if there were more demand, others could be run off.
Dave said that he had been asked if the S.A. planned another student lectureship this year during the week previous to the annual college lectureship. The council decided that such a lectureship might be more effective if it were held at another time. Plans will be made for a spring student lectureship.

Carbon Copy has been sold so he cannot be at our game Saturday night.

After another short discussion, the council unanimously decided that this year's Christmas project would be a dolly drive for the women students and a toy drive for the men students. The dolls for little girls and the toys for little boys will be sent to the children in our Christian orphan homes. The project will be worked through the clubs and there will be a competitive spirit built up between the clubs in both the dolly drive and the toy drive. Prizes will be given for the most unique toy and most unique doll and also to the clubs with the greatest percentage of participation. (The boys may buy their toys within a $.99 - 1.99 price range.) The date for the Christmas party will be Sunday night December 13. Plans will be made for it later.

David read off the list of approved off-campus events for this year.

Dave said we would have an all-school S.A. meeting as soon as possible. At that time we would announce the Christmas project and also the Emerald Room project.

Hollis was asked to arrange a meeting with all club presidents as soon as possible to discuss the Christmas project with them. We need a terrific selling job!

The meeting was adjourned.
