SPECIAL MEETING OF
EXECUTIVE OFFICERS AND CLASS OFFICERS

November 13, 1964

Dave asked the class officers to meet with the officers of the S.A. to discuss the relationship of the S.A. and the class officers and ways that they might work together to make a more active year.

After explaining the purpose of the meeting, Dave read a list of the purposes of class officers as drawn up by a special S.A. committee last year. These were offered only as suggestions. Dave explained that the organization of the class officers had nothing to do with the S.A., but perhaps we could work together to make both more effective.

David asked if there were any particular questions that they would like to discuss. The first question was how can a class raise money to finance a class project? Money raising projects are not permissible so the money must be volunteer contributions or class dues. Wheeler suggested that it would be good if the classes had uniform dues. Don suggested that the classes combine their resources to finance one big project. Jimmy said that this was opposed to the purpose of the project—drawing the class closer together. Doris commented that one of the main purposes of class organization was to develop a loyalty to the class itself. The officers felt that not enough time or thought was put into the decision of a class project.

A second problem discussed was all the classes having meetings on the same Friday. This suggestion was accepted: Freshmen and Juniors have their meetings on the first and third Fridays of each month and Sophomores and Seniors have their meetings on the second and fourth Fridays of each
moth. If a class had to have a meeting on another day, it is the president's responsibility to check with the other officers.

Each of the class officers felt there was a need to have something written down as to the responsibilities and duties of the class officers. The way it is now, each new group of officers has to begin from scratch. The group felt that they would like to meet together several times during the year to discuss what each class is doing and ways they can work together to improve class organization.

The meeting was adjourned.
