German Wilks and John Sands won the men's doubles championship after a stiff three set match against Clifton Garner and Edwin Stover. The match was a struggle for supremacy from beginning to end. Wilks and Sands took it off to a good start and captured the first two sets 6-4, 7-6 before they began to weaken. Stover and Garner came back strong to take the next two sets, 7-5, 6-4. The winner scored a point on the basis of two victories over Dyres and Robbins while Buffalo and Baker defeated Dyres and Rhys 6-4, 6-4 in the first round.

In the other quarterfinal matches Lee and Landrum won by default from Dyres and Robbins while Buffalo and Baker defeated Dyres and Rhys 6-4, 6-4, 4-6.

Track and Field for 1941 has been a very interesting and was very successful from many standpoints. The meet was quite a welcome point of both the participants and the spectators. The run downs show to bee in its tight muscles and thus prevented pulled muscles and so much more. The number who turned out to enjoy the day were rather disappointing. Speculators seemed to be smaller than it is possible that they have been connected with the yearly meet.

Sidney Roper turned out to be the darkhorse for the day and turned in a number of fine performances in the various track events that ran on the day. And distance run equally well is not often found. Roper ran fast, jump, hurdle, and put the shot in even more ra. Roper did well in several different events to gather a total of 21 points to win individual honors for the day.

Hurdles has turned out a number of fine track men. R. T. Clark was one of the fastest hurdle contestants that was ever pulled in a show in the state of Arkansas. Hurdle races and Jack Lay were two all-round men. The combination is probably one of successful athletes that ever has or will appear in Arkansas. Hurdle racing is probably the most^ honest. Last year Jack won the first five races without a single of his points was of the total 42 points for the day. It is my impression that it will be a number of years before this race is won by the world leaders, but by Sidney Roper. May be break his own record in the future.
