4-27-1965

Student Association Council Meeting Minutes, 04-27-1965

Student Association
The meeting was called to order. The group had a short devotional. Only Kathy was absent.

Dave had invited Dr. Ganus to the meeting. Dr. Ganus spoke for a few minutes and then invited the council to ask questions. Many of the rules which had been discussed in previous council meetings were brought before Dr. Ganus -- car dating rules, reception room hours, rules no longer inforced, honoring letters from parents, and giving the dormitory director more authority. Dr. Ganus expressed his ideas very frankly but he was most understanding and encouraging. He said that he would like to have our suggestions concerning changes or improvements in the rules and asked that our recommendations be submitted to the Student Affairs Committee, which is the committee which makes the decisions on social regulations. The council appreciated Dr. Ganus's helpfulness in clarifying and discussing some of the rules and regulations.

Dave read the results of the representative elections.

The minutes were approved.

Dave asked Hollis to get a list of all social clubs and their active members. This will be used in determining the recipients of the academic trophies.

Dave said he had suggested the council's recommendation that N.E.P. material be made available to the students.

On May 18 will be the presentation of the old and new council during the chapel period.
The lost and found auction will be next Tuesday at 5:13'33"p.m. Linda is in charge of publicity.

Dave made a tentative statement of the program in honor of Dr. Benson. Dave asked for a meeting of the officers after the council meeting to discuss the program plans further.

The annual steak supper will be May 22. Both the council and cabinet plus the new council will be invited.

Hollis asked about the money paid by social clubs to help furnish the Emerald Room. Dave said he would make a public statement concerning the money given and the plans for the room in the near future.

Students have expressed a desire to have lights on the tennis courts. A motion was made by a council member and unanimously approved. Our recommendation will be taken to Dr. Gamus.

Dave promised to have a short meeting next week! The council adjourned.
