Liberty is Found in Doing Right

A few days ago a faculty member pointed out that
several years ago Harding students and teachers had as
their watchword, "Liberty is Found in Doing Right.
"We have explained that both teachers and students
joined in carrying out this motto. This principle was given
consideration in matters of discipline, and until a student proved himself
worthy of receiving it.
"We might profitably consider some of the ways in which
we have abused our liberties, and what it has cost us. About
two weeks ago we took our holiday for going one hundred
per cent in annual pictures.

This would give us the benefit of the two regular rest days
on the week end. As usual, when the holiday was given, some several cut
classes Friday and went home not to return until the next Monday.
This was not a serious offense as far as discipline is
concerned, for no one will be disciplined for it. But wait
until we call for another holiday on a week end. The entire
student body and faculty will reap the fruits of this abuse.

"Modern infidelity did not cease with the close of the
school year. The quarterly bulletin of Abilene Christian College's paper at
Abilene, Texas, recently reported that Christian men

Bison Bound Volumes Will Not Embarrass

The Bison records no salacious details—only those that are complimentary to you, so that your children and their children will look back on your college days as a model for their own. Complete accounts of your social club functions appear in this year’s The Bison. Every social club ought to have a bound volume on file so it might have a more accurate record of its activities.

Prelims Run Off For Track Day

After the preliminaries have been held for the highly competitive meet born brighter. Previous opinion favored the frosh, but many said they were equal. However, it now appears that they are going to have a chance to show their talents.

They do have the advantage in that they have as many boys in all the other classes put together if they need them. Their track team is well rounded and able to do anything well.

Other classes may be better in one phase of the meet than they are, but in the long run they can combine their talents in all the events, and long races to come out on top. The juniors on the other hand will be fairly strong in some field events, but have only mediocre chance in the long runs.

SOPHS HAVE STAY DASH ME.

The sophomore team has the best dash man on the track. They put three men in the qualifying group in the 100 yard dash, four men in the 220 yard dash, three men in the high jump and two men each in the javelin and the pole vault.

Sophomore Hagler, who represents the seniors, while Ganus, Bentley, and Skidmore will bear the brunt of the field events and should rack up a few places in this phase of the meet.

Don't forget to come out on the day of the meet and bolster your class. Soph goes a long way toward winning the race.

Please don't go home on this day. The administration is good enough to give us a holiday instead of holding it on Satur­ day, so let's stay and boost the morale of our classmates who are out there giving their all for us.
