Looking on Conscience of mind like the following: wrong someone. They often tell you what vices another lends himself to, that they might justify themselves. "Look, see, and how would you never to go to a friend's home and arrange all the rubbish in piles and ask the neighbors to in digest it!" Dig in the dirt and you will find that you will be wanting company. You will ask another to grab a shovel and get busy. Try to do good and con try, and you will have friends doing good with you.

If your sweetheart aggravates you and you become angry, you have a tendency to speak sharply to all your friends. You will find that you are yourself telling them to other people, and they will all think you are a jolly individual, depending on the type of people to associate with either a "slummy" kind of people too much, you will become like them in many complaints.

The choice of your companions and they are doing the same. You gripe about the way the world is treating you and you will hear the folks you converse with are griping too. There never seems to be anyone to question whether you are giving the world a fair break or not! And the world would not owe you anything more than what you earn.

Breakfast does not taste good when others around you say so. If your darling says her cereals are tasteless, you will be quite willing to gag on your own mashed oatmeal toast. Only to talk all day about the poor breakfast you ate that morning.

A conscientious mind is the most for mudslingers. Another reason, rather motive, for mud- making is that your friends or talking-companions are doing it.
