"Developing Personal Charm" Presented To College Girls By Harding

Developing Personal Charm is a thing of the past because of the emphasis on charades and the Karate Kid. To the contrary, no one in the world knows our Christian colleges, that it may have developed in themselves that personal charm that so vividly endows every woman that possesses it in.

The essence of this unique little book is based upon the 16th chapter of the Apostle Paul's letter to the Corinthians. It is the purpose of those who present this little book to impress the deep-seated qualities which are essential in the worth of those who present themselves to the ideal of seeking the great time to come.

But read the booklet for your own self, young women, and the results will surprise you. It may lead not to thy feet, through pleasant value where kindred fragments. Never may it lead them to those spiritual heights. Where worldly fame and honor hold the door.

NEWS FROM WASHINGTON

ENROLLMENT NOTE

WASHINGTON — (ACP) — College and university enrollment has dropped about 14 percent in the last year, according to latest figures from the office of Education. This figure will become more as the 1939 and 1940-41 who make up one third of the country's total, will be affected by the college situation — are absorbed by the army.

FOOD, FIBER, COLLEGES

A study of a group of Agri. Wrickard has made it clear that we cannot possibly produce more food and fiber than our present year in the United Nations can use, even if America's 5 million farmers meet the goal and they are now setting themselves for next season.

This study demonstrates that national actions, as we face the necessity of greater food and fiber production for post-war feeding of ill-equipped Europeans and hungry-weary Asians. If they people hear our promises of Freedom from Want, they probably enjoy the thought of a world-wide prosperity in this nation. That vision most develop into something more than a millenium.

Lack of manpower is the No. 1 obstacle in the way of a more abundant food and fiber production next year. And this is the problem. And there are many colleges and men women throughout the nation, through the Shrillness of those who are living in the 1942 harvest, the most bountiful that history. Accompanying these will be free for a call in greater effort for 1943. This call should be heard by our old-age, challenging officials as well.

WOMANPOWER

One of the nation's largest
governmental firms is at work on a womanpower plan that makes good sense. By way of the American Council of Education, the firm sent questionnaires to colleges of women to discern the extent of the problem. (Continued on Page Four)

Sherrill Is Sunday Radio Speker

T. H. Sherrill, minister of the local church of Christ, used his radio program "Folks' Religion" on a series of broadcast sponsored cooperatively by the college church and the church at Dallas. The program was broadcast Sunday morning, Jan. 6. It was a series of broadcasts sponsored of a group of twenty Harding students, behind the team "Take Time to Be Holy," song "Holy, Holy, Holy." "Faith Of Our Fathers," and "My Faith Looks Up To Thee." The program.

What do you think of Dr. Benson's suggestion that we wait for the jelly in the jar before lining up for meals?

NELL WATSON: I think it's a good idea, but I don't know if I can wait.

JOE CLASS: It's better sitting in your room studying than standing in line talking while you wait.

EILEEN KING: I like the plan of "Take Time to Be Holy," but I don't know if I can wait.

CANDY ROLLINS: I'm afraid I won't be able to wait for the jelly in the jar.

MARDY BRIGHT: I know it makes it a lot more convenient for you.
Now we each have taken from the shelf a clean, new book bearing the title "My Life"—1943. It still contains over 300 unblemished pages. We can still decide what shall be written on those pages, but now is the time to make that decision.

Will we continue to live indifferently and excuse our indifference by saying, "What's the use of doing right, when the world's all wrong?" Or will our indolent spirit exact a visitation of a world made better through our untinted efforts? Will our resolution including the new year be "greater things for God?"

That resolution includes the question: "What do we do in the true spirit of Christ, so that men may say of us that our zeal and self-sacrifice are completely revolutionizing this old world? Let's make each page of this year a fitting memorial to the spirit of Christ. It can be done—completely awesome.

ARE YOU GUILTY?

I'd like that student if he didn't have his nose stuck in the other fellow's business—

Bein' willing to give even the worst fellow his just dues. An instructor was made in order to teach. He didn't have enough to do without fumbling in our affairs. The investigation gave the following information:

1. This graduate was a regular attendant to six extra curricular activities.
2. More than the ordinary load of 16 term hours was being used.
3. A school work contract had been made, which his assigned job done right would take at least three hours.
4. This student's grades indicated that much more time could be spent on them, because one was a flat failure, and the rest were "nothing to write home about.

Could it be his person or group, and a survey like this shows us that we are all more or less guilty of this very thing. This description fits more than a few, but a very good one to "wear it." War this until you pinch; then exchange it for one that does fit.

Perhaps this student whom we mentioned has more ability than the average—we'll even grant that, but time limits us all—

Even Dr. Benson. For this student to participate in six extra curricular activities, fulfill a work contract, take more than sixteen hours of work, and grade work of grade with us, it will not be necessary to spend 22 hours per day on the job! Think of it, all of this work and yet time can be found to go busying.

Do not hallucinate..."
