Colds Getting You Down? Then Try Chris’ Remedy

By CHRIS ELLIOT

do all of my friends. I even use them myself. It's a really cool idea. The thing is, it saves money and makes your kids happy. The idea is that you can put the little, colorful, plastic bottles on the shelf in your cabinet and when someone needs medicine, they can just take it.

I'm always on the lookout for new ideas and this one really caught my eye. It's called "Can't Be Sick from Now On." It's a system where you can put all your kids' medicines into little, numbered bottles. Then, when they need something, they can just grab the bottle and go.

I think it's a great idea. It's simple, it's effective, and it's something that everyone can use. I highly recommend it to anyone who wants to save money and keep their kids healthy. It's a win-win situation.

Another Week - Of History
By Dr. M. R. BOUCHER

If you wish to keep up with what is going on, get your world wide and study the part of the world that lies at the Center for Christian Missions. Nationalism has come late to these areas, but it is definitely on the march. Iran and Egypt, like India, have decided that they want to run their own affairs, and are becoming more and more of a hindrance to the spread of the Gospel throughout the world. It is not easy to move clothes and belongings which will last five days. Likewise it is hard on the other girls to make rooms for those in their homes but hardly spacious rooms. But they are used to this. Probably more than we could do, will help make the Forum a success, as it would be impossible to secure that comfort for many homes in this area.

There are other ways in which we can help. Consideration, courtesy and a genuine helpful attitude should be a characteristic of each one of us. The three representatives will naturally be in a position to help the few more, but there may be a time when one of us can be of some aid to the others. A friendly smile and greeting to the campus while passing may be a small thing, but it adds much to a general impression of the school and student body.

We are getting off on a fine start regard to the letter, the giving over of the 2nd and 3rd floors of Cathcart Hall to the conference is a fine idea and so is the use of the small fellowship rooms by the girls who will share their quarters. It is not easy to move clothes and belongings which will last five days. Likewise it is hard on the other girls to make rooms for those in their homes but hardly spacious rooms. But they are used to this. Probably more than we could do, will help make the Forum a success, as it would be impossible to secure that comfort for many homes in this area.

TRIO - Music - Drama - Art
By MEREDITH THOMAS

The art department made posters for the band's Wildcats versus Oakley Springs game. The money will be divided equally between the boys' and girls' athletic clubs. The students involved were extremely excited about the idea.

Last week, Professors William Cook and Edward Buxton presented a very colorful chapel program in the high school. The musical program closed with a beautiful musical play, "The Nativity," which depicted the true, but weird, and most of all, the true story of the world's greatest religious. Well it would have been useless with the passing away of the many who have lived and worked through all the Christ's work. The object of the entire program was to prove to Mr. Mason that more than one day's notice was necessary if one was to function as a doctor under his name. Mrs. Mason's comment indicated that now in the hands of the minister from the pulpit.

After calling three years, two one act plays have been in the Academy. The Drama Club, "It's All Right With Me" by Daphne, was presented several times; and the second, "The Plan," by a high school, was presented only one time this fall. All of those who tried out for the plays were interested in the amount of possibilities and I can recommend a good performance from both plays. Times for everything else is opera, a comedy by Frank Doran. I am not sure of what the plan is for next year, but I do know that the department is going to look up and personally arrest those who do not have any better plan than to have a room in the new auditorium, if it is ever finished.

The word Christian is mentioned only three times in the Bible, but from these references we can get a fair impression of the Christian character. The word "Christian" is not just a label, but is a word that is used to describe someone who believes in Jesus Christ. The word "Christian" is not just a label, but is a word that is used to describe someone who believes in Jesus Christ.

Several have been asking about membership in the dramatic organizations. The Drama Club is open to memberships, and the only qualifications are interest in some form of dramatics and willingness to work in any way. Anyone who is interested in trying for any Campus Player's productions, can go to the Boy Scout and get their membership offer. The club, Drama Club, will meet every Thursday at 6:00 P.M., unless otherwise notified.

To be eligible for Campus Players, you must be a sophomore or junior, and also have a good grade point average. The Campus Players are the official student organization of the university. Each year they give a major production.

Art: The air conditioning has been installed in the new auditorium. This will help to reduce the heat in the auditorium. The air conditioning will be ready to use next year.

This concerns the working of the plays. If the program is finished by next year.

The workmen will have to meet the demand for the new auditorium.

So as to give boys the best on the wall. We are not going to have the workmen to meet the demand for the new auditorium.

If my Readers, because this poem is a letter to a friend, are willing to try to keep in mind, it was written in my space time, and I don't want to take up any more space.
