Passes Away; I. Benn Fades Fades

By W. F. BELL

The good of days of cowboys and the good of days gone forever! The hair-chinned, dirty red-shirt men who rode their horses and who bored a hole in the face of the plain's whitest, with their broad blue hat, are undergoing slight changes. No, the long, bony legs and the buckskin shirt and the plumed cap and the diamond buckles have not disappeared. The long, bony legs and the buckskin shirt and the plumed cap and the diamond buckles have not disappeared. But the old cowboy is gone forever. "The Plain Dealer" reports that the death of Mr. I. Benn Fades Fades, a native of Arkansas, was announced yesterday. Mr. Fades Fades was a well-known character in the horse opera era, and his passing is a loss to the plainsmen of the old West.

Students Show Foresight On Dining Situation

We are glad to note that the Harding student body is a thinking one. In a recent poll we gave the administration a campaign to try to get more seriously concerned the quality and quantity of cafeteria meals. It was stated that there is all the more reason to be very happy over the results of this survey of quality of meals if students would agree to increase in board rates.

It was proposed that the students pay 50¢ a month in place of 35¢, which is the current rate, and several months ago it was decided to question indicate that the students in this case have done this.

To us there appears to be several drawbacks to the proposed plan. First of all we are naturally not trying to criticize the cafeteria nor the personnel, but our question indicates that the students in this case have done this.

There is another thing that comes to our mind. A plan of this kind definitely means a direct increase in board rates. It may be that the college might be forced to bear the additional cost of these meals.

This is not true of the boys. Taken on an individual basis, many of the students have more than enough money to eat well. That means that the girls are really paying part of the boys' board bills. This plan means that while the boys are eating, the girls are paying for the food of the boys who eat more than they pay for.

As long as we are going to have a "mass plan" let's keep it at a minimum amount of the rights of those of being frightened. If there is to be a raise in price, then an immediate announcement should be made so that the students will have time to plan.

We are interested to note that several students have commented that they have lost weight on the new menu. We are generally speaking — of the same opinion.

Some people are never satisfied unless they have something to gripe about. It is unfortunate that the college cafeteria is forced to hear the bawling out of the students who are in agreement with the student who says "why not let students stay as they are?" At least this way we still have some money left to eat if we want a change occasionally.

GRADE EIGHT

By JACK RHODES

Well, the chicken soup is back again. The junior's team has its first game Nov. 24, if the date is not changed.

We will have an elementary basketball game at three o'clock on Saturday. The boys who have chosen from the sixth through the eighth grades will be ready for several games this year.

The basketball team is now in school class Nov. 11. The program consisted of songs, jokes and readings. Miss White, principal of the school, was the speaker of the evening.

The cast was made up from boys and girls of the grades chosen.

The boys through the eighth grades have been writing letters to their favorite athlete in a sports column.

If you ask me?

WARRANT BRAINEY

What is your opinion of the method professors use in determining the grades and quantity of food served in the cafeteria?

Jennifer Lee — I am against it because I am of the opinion that the food is too much and too luscious and too good for health. Besides, I can't afford an extra cost.

Joe Banks — I think the meals are satisfactory. Where could you get the same quality of food for what we are paying? We should be satisfied with what we are getting and not always be griping about what we don't get.

Jennie Mayse — Definitely not! I wouldn't be able to work in the dining hall with the same效率. Mrs. Hart has done a good work.

Andy King — I don't believe a price is a price unless the answer is the same. The meals are either very good or very sorry, it would be much better if they got mixed up a little.

Peggy Futrel — This in favor of more factories because I'd be too starved to die.

Ortiss Armstrong — It is all right if they are getting more, but I think the meals have been okay.

Wildred Webb — I believe the meals as a whole are exceptionally good. If they were the very best we would still get tired of them as we never leave it as it is when we get tired unused our extra money and go out.

Don Nee — I am against the increase mainly because too many of us would be made a meal away from home. Also, I believe there could be some things like soup, sarcasm and such as we are already paying.

Lawrence Hanes — I believe the meals as a whole are good but I think the people in other parts of the world have it even tougher. Our griping is that there is about the meals.
