Dr. Clark Speaks Here This Week On Science Topics

Dr. Robert V. Clark, head of the Department of Psychology-Biological, in the School of Aviation Medicine, USAF, Randolph Field, Tex., will speak on the Harding campus next Wednesday and Thursday.

Dr. Clark is one of the leaders in the church at New Braunfels, Texas, preaching occasionally and teaching in the Bible school. He will speak at the Wednesday night service and at the morning service on Thursday.

Dr. Clark is guest lecturer at the University of Texas School of Medicine in Galveston and the Louisiana State University School of Medicine in New Orleans. He is a member of the Air Force Council for granting money to civilian institutes.

At the present time Dr. Clark is the president of the society for Experimental Biology and Medicine, and the society for Experimental Medicine (Federation Societies) of Copenhagen, Denmark, to present a paper. After leaving here, Dr. Clark received a graduate assistantship at the University of Tennessee and was there received his M.D. degree in 1942.

After teaching for a short time at Missouri State College, he entered his present field of work. During World War II he was engaged in physiological research for the Naval Air Force.

Teaching Positions Open in Three-State Area

The Harding College Placement Office announces teaching positions that are open in Arkansas, Mississippi and Arkansas.

Mathematics, Kansas, needs teachers in home economics and commercial subjects.

Dr. Laney, Mo., needs elementary teachers.

Harrisburg, Ark., needs teachers of music, speech and English.

The schools in Van Buren, Mo., need teachers in social studies, mathematics, science industrial arts, music, art, history, and high school and elementary principals.

Lecom, Mo., is in need of a home economics teacher, a combination mathematics and science teacher, a music and English teacher, and a coach.

For more information contact the Placement Office in the American Studies building.

Sawell Speaks Monday At Preacher's Meeting

James P. Sawell, counselor in Bible, Religion, and Psych., will speak Monday night, April 29 at the Preacher's meeting, at 6:20 p.m. and everyone is cordially invited to attend although you are not a preacher. Ladies are also invited.

Notice

All remaining petitions for positions in the Student Association must be turned in to the Student Association's offices by 12:00 noon, Saturday, April 27. Each petition must contain 30 signatures.
Next Week: Freshman Edition

For one week the regular editor, business manager, and staff of the Bison will step aside and the freshmen will take over the duties involved in getting out the Bison.

Each year the freshmen publish one issue of the Bison to acquaint themselves with the problems of newspaper work, and to gain experience with this type of activity. The Freshman Edition will give the class an added incentive to work on the Bison in the future thus making a better paper in future years. It will also be a task, but we feel that the hard work that has already been done on the completion of this goal, and the enthusiasm of the staff will produce a paper that will not be inferior to any that has been published this year.

You have a job, freshmen; but you can do it!

Good luck!

Then, How Will You Read?

In approximately five weeks, most Harding students will be able to appreciate many parts of the environment of Harding College. Regardless of what we might like to say about it, Harding students are in a somewhat sheltered atmosphere without many of the temptations that confront those not on a college campus with a Christian environment.

Many problems are going to face each one of us — problems with which we have never had to cope before. One such problem will be to do without the newspaper.

Often the speech of a person does not agree with his actions. What do we expect of an integrated, quadratic environment, and equality, when time comes for action, as it may for us this semester, we may be slow to act. Let us make it a little more personal; though you verbally preach integration, would you be willing to follow in what you advocate? when the time comes for you to eat, ride, and directly associate with Negroes. Harding students are in a somewhat sheltered environment and have to cope with problems such as these.

It will be a task, but we feel that the hard work that has already been done in the environment of Harding will have to be continued. Since the Supreme Court decision, verbal wars have waned and vio­

The problem of integration, although it has simmered for several years. However, since we have been at Harding, the problem has not directly confronted us. But theBuford, as well as the other students, are going to have to weather the storm and face the problems that will be in the future.

To express a desire that all people be treated equally. Most students on the campus would be in agreement. It is necessary for us to be more conversant with the Negro people equal opportunities in life. Now the problem will bounce right into our hands and we, as individuals will have to face it. Here is the problem.

Time alone can bring about a peaceful solution — not taking time merely to prolong the time of integration and try so to force it that it cannot be accepted. "The world of tomorrow" is looking to us. In our future way of working, the environment of Harding can bring an atmosphere that will be good for all classes to coexist, if we are wise and understanding.

Until now, the Bison has refrained from discussing this great problem. Now, however, it is time that we deal with it. However, the time has come when Harding students must soon go into places where the problem will exist. The problem is one that should be studied intelligently and not one in which emotionalism should muddle the thinking of individuals.

Yet, it is a personal problem. Each individual must study it and let his actions be the result of much sound thinking. What are you going to do when directly faced with the problem?

By ED WYNN

The apostle Paul told Christians not to be the world. He admonishes us to be so4 influenced according to the things of the world. Many occasions may read this and straightforwardly feel justified in simple disinterest from the things of the world specifically concerning the scriptures of the world or do not do those things that all the Christians may conform to. Insomuch as Paul did not specifically mention those things in which Christians were not to be conformed to the world, the people may have a mistaken view of what he means and try to apply things of the world to just those things that are above the moral level of the individual. We try to get just as close to the world as to not to antagonize the world without going all the way over. Actions should not be allowed to be contrary to the world.

There is a particular realism that Christians often conform to the world though unconscious of their actions. These are religiously pitiful.

First, let us notice the religious activities. The religious activities of the world have inaugurated several special days, feasts and periods of worship. Examples are Christmas, Easter, Lent, and such days. A hot problem arises when Christians fail to see the significance of observing such days inaugurated by the religious world.

The periods mentioned, with the exception of Christmas are adult religious (using the term loosely) in nature. They are observed as special days. But one would not have to go to far to find Christians who would make special preparations for such occasions as preparing special meals, special decorations, and adhering to special fashions in other things. Is it not a victory of the world? Again, in the moral realm, many of us try to conform to the world. Christians are supposed to conform to the world, and conformations and then adhere to them, we do more than we might think.

When we make suggestions, convictions or beliefs, those stand strong and holy to the sake of the world. As Christians, while we are supposed to act as we study the will of God in the world, we are surrounded with conditions of which the world may do not stand for such stand in place for what the scriptures demand. Let us stand for the Bible for the scriptures demand that we stand for the Bible for the world. We are supposed to be a light to the world, and we are supposed to be a light to the world.

As left behind, they have to be a light to the world for the world.

By PAY TRAGIE

The college administration has been involved in a big topic of conversation on campus now. Everyone everyone is talking about the coming elections of officers for the Student Association. Let us hear about it in the Student Center or just about anywhere you go.

This year's election promises to be quite an interesting one from several points of view. There have been quite a few who have announced themselves as candidates and a number of other candidates indicated that they would run. It will be only a short time before those petitions must be in the hands of the Registrar. If you are interested, be sure to get a list of candidates very soon.

In the past there have usually been two candidates for each position. As looks as this year will be a little different. At least count there were about six candidates for the office of secretary-treasurer. There were about four others, but nevertheless we should set our own moral order. When Christians have particular bad habits, we should not let the world lower our standards. At last count there were about six candidates for the office of secretary-treasurer. There were about four others, but nevertheless we should set our own moral order. When Christians have particular bad habits, we should not let the world lower our standards.

Perhaps this is a good time as say for a word of caution. This year's Executive Council has done something excellent in its work. It has had several good projects and sponsored good activities. It has definitely been one of the most active and best organized Councils Harding has ever seen.

It really happened! In fact it has happened. These involved have added something to the campus for obvious reasons. It seems that about five pretty confident students had received all necessary permissions to leave campus and go to a neighboring city to visit relatives for the weekend.

As left behind, they have to be a light to the world for the world. As left behind, they have to be a light to the world for the world.

Seniors Come From Miles To See "Ginger" -- And Harding

Last Saturday, Senior Day on the Harding campus, high school seniors from around this area came to visit Harding and get a taste of college life. Seniors came from as far as Abilene, Tex., and Athens, Ala. Approximately 300 attended. Left is a scene from "Time out for Ginger," a symphon production the seniors saw.

Assignment: Harding
Rain, Rain, Rain And A Class Is Disrupted
By Jackie August
It all started with a few drops of rain. In fact, there were so few, it was hard to tell it was raining. But by the end of the afternoon, after lightning and thunder caused a loss of electrical power, everyone knew it was raining.

I doubt if the rain would have been noticeable to me if it were not for a tall, string-looking boy who disappeared against the science building after failing at him in amazement, I decided he was afraid of getting wet.

This can't be true, I thought. Surely, a he-man like that is not afraid of rain. But I was right behind him, he latched onto someone with an umbrella and became his own, storm-tossed umbrella.

In various fields of science at the Harding Science Center, students and faculty were aware of the loss of power. High school students who were attending the Harding Science Center were aware of the loss of power. High school science students who were attending the Harding Academy of Science were aware of the loss of power.

The teacher, deciding that waiting for the lights to come on was useless, dismissed the class. Everyone crowded towards the window and aimlessly gazed out from the darkness. Some glanced through the window now and then to observe the rain outside.

Some of the students, still living in a dream world, drifted out to become drenched. They straggled out of the classroom, one by one, drifted out to become drenched. They straggled out of the classroom, one by one, drifted out to become drenched.

The rain slowly ceased, until by 1:20 p.m., it was dark enough to see the flashes of lightning through the window. The class started getting excited, talked more than a low murmur, became a low hum, became a more glum continuously humming noise.

It all started with a few drops of rain. In fact, there were so few, it was hard to tell it was raining. But by the end of the afternoon, after lightning and thunder caused a loss of electrical power, everyone knew it was raining.

Dean Of Women Releases Names Of 21 To Serve As 1957-58 Big Sisters

If response is any indication, the Big Sister program at Harding has proved highly successful, Mrs. Inez Pickens, dean of women, revealed this week in announcing the names of 21 girls who will serve as Big Sisters next year.

Miss Hickenbottom To Marry On June 8

Mr. and Mrs. D. F. Hickenbottom, Newcomerstown, Ohio, announce the engagement and approaching marriage of their daughter Deborah Lou, to Wallace Alexander, Delight, Arkansas.

Miss Hickenbottom, a Harding senior, is a member of the Kappas Kappa social club. She was graduated from Proctor-Hardenburg College in 1955.

Alexander, son of Mr. and Mrs. Flanny Alexander, Delight, is a member of the Mohawk social club, and also a senior at Harding. He is editor of the Harding BISON.

The wedding will be June 8, 1957, in the Newarktown, Ohio church building.

| Boler, Phils.  | 5 | .300
| Cussey, Phils. | 5 | .300

Gerald Ransom awaits the offerings of pitcher Bob Fletcher in a Minor League Game last week. Ransom led the Barons over Fletcher's Chicks by scoring these runs. The final score was 14-4.

...be cause they offer more varieties than Nesca.

One thing about dieters, they always attack normal menu. Washington should build some spring concentration camps for them because they certainly are dangerous as they run loose.

He cracked his whip Tuesday week in a two-hour exercise session. It was over most of the world. How much difference there would be between intramural and Little League sports was partially demonstrated. The best answer could be that he was a better pitcher.

The Bisons stretched the warmups again Thursday, this time for one and one-half hours. It was a good workout. Groover remarked afterwards, "much better than our first one."

Harding's new coach practiced his men in layup strategy and brought them outside for long-range shooting. "We certainly didn't burn any gas, but it could have been worse," he said grinning.

Groover doesn't expect impromptu bounce from his boys but he is looking for learning men not afraid to work. Likely, he will find them.

Included in last Thursday's session were Groover shuffling his tallest men beneath the net, put defensive men on them and then honed them in the half. Most of the gymnasium, thus, Groover's manager managed to hook several around the neck and argued defense. It was the same connecting hook that won Red. The outstanding Trophy in last month's all-star game.

Groover's men hustled through another workout last night and more are scheduled later on. Until another hour, the Bisons are to put in a few hours practice with the old master when he visits the campus.

Harding could very well boast the best college pitching corps in Arkansas next year if, and when, several prospective arrangements come to pass. This would be the arrival on the campus of major leaguers. Enos Slaughter, Ga. 40,000 dollars a year and Andy McNab, the St. Louis Cardinal, $40,000. Both of them call the Bisons the craft of baseball.

Bison, it's no little secret, is the pitching card. He's a no hitter himself, is the pitcher. Coach Lumpkin, who had a 7-3 record with the Cardinals last season, told Sporting News magazine that he planned to attend Harding this fall. Both would make handy pitching instructors.

Poucher has already enlisted as a staunch supporter of the Bisons and it shouldn't be difficult to secure a few tips from the old master when he visits the campus from time to time. And should McDaniel show up, well, it's nice to think about.—N.H.

And The Rain Came...

Rain, rain, go away;
Little Garrett wants to play.
His arm is weak and throbbing bad; Why, he's no more our pitching card. Just last week—what a shame—He allowed four runs in a baseball game.

No time has he to toss a few,
Because the sun just ain't in view.

So little Garrett can run and throw, if you will, he promises true.

To toss a dish of just for you!
ThePhils swept into the top spot in the League by downing the Cards, 6 to 4, with fire-hitting by the victors. Timmerman, Saturday afternoon.

Many expected the game to be a pitching duel between arch-rivals, and it was, for six runs in the first inning, a pitchers duel between arch-rivals, against Hightower, who ordinarily has excellent control to be more than enough to win.

The plate for Buddy McKee, produced six quick runs which proved to be more than enough to win. The man gave up a double to Hightower in the fourth when Timmerman's grounder to first by Leon McQueen was caught. Timmerman's supporters.

A final - inning rally by the Cards to be a little sharper with the birdie were a little sharper with the birdie. The twins, however, had to come from behind as they went one in the hole by the count of 15-13 in the initial match. The second contest turned in just the reverse of the first, with the twins tagging Schwartz and Timmerman 15-13. In the final, the Vanderpools had to overcome a 15-13 deficit to become the doubles champions, 15-15. Saturday night, Hightower and Vanderpool played until 12:00 a.m. before the latter finally won the third of the set by the overtime score of 16-15.

First little girl: "We got our new baby from Dr. Green." Second girl: "We take from him, too."

### Phils Down Cardinals; Take Over Top Spot

The Ex-Dodger Great Expresses Delight At Harding's Return

(Dennie Hall, 1935-36 editor of the Harding Bisons, wrote the following story after inter-collegiate Brown "Preacher" Roe, Both Roe and Hall are now living in West Plains, Mo., Hall is working for the newspaper there.

Hightower and Timmerman are the median respect for Timmerman's enthusiastic whipped Timmerman, which appeared in the column.

When Harding's Bisons began showing their colors in inter-collegiate competition, one of the characteristic operators of tennis was, another than Brown "Preacher" Roe. Preacher Roe, an alumnus of St. Louis University, is pleased when the intercollegiate activities are disrupted back in 1935 but trusted the judgment of the administration to such an extent that he was sure it was done with the best interests of the college in mind.

Still looking as if he could show the ball handily in a trick or two, Roe was eager to know how the coaches will be adapted in their training facilities, and for the competition at Harding, he highly praised Rhodes Memorial Field House.

He seemed to have no doubt Harding could stand up with the best in the world of college sports and predicted Harding would have "some very good material.
