Broad Street Church of Christ
Cookeville, Tennessee

Dear John Allen:

I mentioned to you the need that we will have for portable electric heaters in São Paulo. It doesn't get real cold but all who have been there advise us that we will need some heating arrangements. Each of the 14 families needs at least one and we could profitably use two each. All our equipment needs to be six months old to escape high duties. We would like to ask the church there to give us as many of your electric heaters as you could. If you have no other need for them we could use them profitably. Let us know what you decide.

Brotherly,

Jerry
