New regulations restrict parking

Parking on campus will be more restricted than ever before following the implementation of new parking regulations. The changes are the result of student complaints about parking problems, and they are designed to reduce the number of parking violations.

The new regulations require that all permit holders display stickers on their vehicles. Stickers will be issued at the Administration Building, and they will be valid for the entire academic year. Those who fail to display stickers will be subject to fines.

New parking areas near the Administration Building will be restricted to permit holders only. These areas will be monitored by security personnel, and violators will be subject to fines.

The police department will enforce the new regulations, and they will have the authority to impound vehicles that are parked illegally.

Joe Batten, renowned management consultant, will be the speaker at the seminar. Batten is a widely acclaimed speaker and has addressed seminars throughout the country. He has produced a number of films on the area of motivation and leadership and is currently the president of Batten, Batten, Hudson & Swab, Inc., consultants in management, education, and research.

The seminar presentation takes as its theme the title of his all-time best seller, Toughest-Minded Management, published by the American Management Association and now in its seventeenth printing.

Batten's philosophy, known as the prototype for tomorrow's management, "will be helpful for anyone in, or going into, supervisory position," asserted Dr. Burks, president of Harding University.

Leaders in business, economics, and management throughout the state and surrounding areas will be attending the seminar which will begin with registration at 9:00 a.m. at the American Heritage Center.

New regulations restrict parking

New parking rules and regulations will be released sometime next week, sectioning the parking areas into three main zones, according to Bernie Vines, work supervisor.

Vines said that areas designated with blue on the new maps will be for upperclassman parking, purple areas will be for commuting students and other unrestricted areas will be for freshmen.

Also, because of chronic violators to the parking rules, stricter enforcement measures are being taken. "If times aren't taken care of, we have an agreement with a towing service to tow the violators' cars," Vines said.

The towing service will cost $10 and a $1 a day for storage. The car cannot be removed until the fine is cleared in the business office," Vines said.

Mr. Bill Barnes, chief security officer stated that recent inclement weather had increased parking violations on campus. He said that he had issued 25 tickets a day but that the last few days the number of tickets had increased because people try to park closer to the buildings in the weather.

This parking problem, according to Lott Tucker, vice president of business affairs, is not inadequate parking spaces, but inadequate convenient parking areas. "There is no way to increase the amount of parking close to the buildings. Parking therefore has to come from the outer perimeter of the campus," he stated.

Vines reports that there are 1,100 to 1,100 cars registered and over 1,100 parking spaces available on campus, it's just not all right by each building.

"All colleges have parking problems," Vines continued, "but I contacted collegues and they have less problems and the cheapest parking.

Plans are being made for additional parking areas near the new gym which is under construction, areas near to the former dormitories and areas around the railroad tracks by Turner Street.

These areas will be available to the students who have parking stickers. Vines also added, "we are going to impose cars without a sticker."

"We don't want to be difficult, just fair and open for discussion," Vines concluded. "We will talk about parking problems, maybe they'll have some new ideas."

Wright Bros. Co. coming for Thursday night show

Wright Bros. Overland Co., a four-man musical combination, will perform here at 7 p.m. on Thursday, March 30, according to Student Association President, Dr. Dennis Wilkie.

"They're the best group that I've heard in a long time," commented Dr. Wilkie. "They perform the old songs on banjo, harmonica, and banjo."

Personal manager, Ron Perry, is responsible for their booking and sound system, valued at $60,000.

"They've got something that will please everyone," concluded Dr. Barnes.

Tickets for the show will go on sale Monday. Cost will be $1.

Humanities sponsors contest

Students may enter their written work in the 1975 Creative Writing Contest. Each year the contest is sponsored by the Humanities division in an effort to recognize and award creative writing.

According to Dr. Dennis Organ, assistant professor of English, the contest is open to any Harding College or Academy student. "All entries are to be typewritten, and except for poems, must be double spaced. There is no limit on the length of manuscripts. However, more than five poems are to be submitted by one person.

All entries must be submitted to room 301A of the American Studies Building by 5 p.m., March 7, 1975. Entries should be placed in a folder or envelope with the author's name on the outside of the envelope.

There will be a cash prize of $20 to first place, $15 to second place and $10 for third place. The contest will be judged by a committee composed of the faculty and non-faculty members.

Any interested persons should contact Dr. Dennis Wilkie, room 301A, American Studies Building, extension 301.

S.A. studies food prices in cafeteria, College Inn

The "economic pinch" headed the list of topics at the Student Association meeting Tuesday night. Prices and the quality of food were discussed concerning both the cafeterias and the Calling Inn and plans were made to investigate ways to alleviate the problems.

Bill Fowler, S.A. President, discussed the food problems with Lott Tucker, vice president in charge of finance. He suggested the S.A. form a committee to investigate into cafeteria conditions. Tucker also related that he was not aware prices had been raised at the College Inn and he would investigate the matter himself.

Brad Bryan was named to head the cafeteria committee which was formed last semester but had dissolved since. The committee consists of Bill Fowler, Lott Therio, Nancy Cochran, Jim Lackey and Connie Wilkie and is responsible for drawing a report on cafeteria conditions and possible solutions due February 15.

The computer dating service, proposed at last week's meeting will probably be held next week with results by Valentines Day. The related activities that Dewitt Yingling proposed last week to correlate with the computer dating have not yet been planned by the committee, and also appointed last week.

The Harding commemoration events committee, appointed last week had not met. Fowler stated that he would not "approach the administration" with the event until he has a complete planned program to present.

Last week the motion was made to conduct a football and air hockey tournament. As of Tuesday night no further plans had been made concerning the tournament.

Laziness causes crowded parking conditions

Tiring to squeeze between all the cars jammed in front of the Heritage Center one day recently, we decided it was time someone did a little investigating into the parking problem around campus.

So we did just that. And, much to our surprise, we discovered that there is not a parking problem, just a lot of inconsiderate, unthinking drivers.

According to Work Supervisor Bernie Vines, there are 1,050 to 1,100 cars registered on campus, and there are over 1,000 parking spaces available. Why then are there the little reserved spaces filled with students' cars? It's simple — people are lazy. They don't want to walk, so they park anywhere that's close to the building they're going to, even if it's on the sidewalk.

We're not trying to accuse anyone, because we're all guilty of committing a few parking violations. But new parking regulations are being enforced next week, and anyone caught up by stricter enforcement. With that in mind, we have a few suggestions on how to avoid tickets or endless searches for a parking space.

First of all, let's face it — it's not going to hurt anyone to walk to the New Science Building, no matter where they are on campus. Many staff members arrive at work only to discover their parking spaces taken by students who drove to their eight o'clock biology class. Those of you who've been driving to class, especially early morning ones, try walking. You'll be surprised how awake you'll feel when you get there. You'll probably also be amazed at the number of nice people you'll meet on the sidewalks going the same direction.

And for those of you who have to drive from the dorm to the cafeteria for supper everyday, try a little footwork. It's not going to increase your appetite that much. Also very few students get so much mail that a car is needed to get it back to the dorm.

Parking in the staff parking lots would be a lot easier if more faculty and administrative personnel would follow the example of Neale Pryor, Bob Helston and Maurice Lawson, who among other faculty members regularly ride bicycles or walk to their homes. It's strange to us that many of the staff are so athletically oriented, yet drive to school from their homes only a block or two from campus.

When you're circling around trying to find a place to park, remember not everyone can park next to the building. Try the outer area of the campus. A little consideration make them a lot easier to find.

Feedback

Dear Editor:

The College Inn operation is not giving Harding students a fair shake. If you face it! The only shade that students are getting from the College Inn is when they're turned upside down and their pockets emptied.

First of all, the College Inn is not to provide a front for legal highway robbery but to provide a maximum of quality for a minimum of cost. With educational expenses not shrinking, Harding students are currently paying for services that provide more for a dollar than four small cokes that are 80 cents per ice shake.

First employed is instructed to fill each cup completely full of ice before adding the carbonated mixture. For a small coke, this amounts to over 100 cokes a day and a half ounces of soft drink for the price of 23 cents. Small cup, ice, and drink combined, however, costs the Inn about five cents per cup.

In speaking of legal highway robbery, the word 'legal' is out of some areas in the Inn. On-campus students are a micro-bargain, and is it even near 10 percent hard-

- Hambus and coke may be the same example — they are not the same. The issue is that three-fourths of the College Inn's prices are supposed to be set up by the students, for the same prices it would greatly benefit students to take their business to local vendors, and save a dollar for themselves.

In short, the College Inn is not operating within the frame of a business.

Hambus and coke are examples of the issue, not the problem. But not all students can exercise this option because of transportation fac-

- tor, and so essential the purpose of the College Inn is smothered.

In short, the College Inn is not operating within the frame of a business.

2. HAMBURGER with hickory smoke sauce 35¢
3. HAMBURGER with mustard, pickle & onion 35¢
4. OLD FASHIONED CHEESE BURGER with mustard, pickle & onion 45¢
5. CHILIBURGER with chili, cheese & onion 50¢
6. SALADBURGER with lettuce, tomato & relish sauce 45¢

Happy Days Are Here Again

One of the things that makes America great.

Five students to emcee second club spring sing

Five students were recently selected to serve as hosts and hostesses for the second annual club Spring Sing, according to program directors Dr. Jack Ryan and Jeff Hopper. Because of the musical variety of those that were chosen, the directors feel that they will appeal to all ages. Those who auditioned were required to sing as well as introduce and promote their songs.

Michele Pullara, sophomore from Searcy, sang "As Long As He Needs Me" for the final tryout when she was selected. Sylvia Rose, a senior music major from Detroit, Mich., was selected to be a hostess after her audition with "The Battle Hymn of the Republic.

Also from Searcy, freshman Bible major Tim Holder was selected as the only freshman to serve as a host. During his tryout he sang, "The Cat's in the Cradle." Senior Ann Ulrey, an English major from Searcy, sang the classic "Somewhere Over the Rainbow" during her audition this year.

Stacy Peters, a senior from Glenwood, sang a piece written and arranged by Jeff Chandler, a Harding student, entitled "High Among the Rockies."

This is the second year that Miss Ulrey and Peters have been selected to serve as host and hostess.

Those who auditioned for this year's program were judged according to general stage presentation and poise, singing ability, speaking ability, and displaying genuine interest in and enthusiasm for the program. Dr. Ryan said:

Others who also auditioned were Kathy Curtis, Melody Perkins, Steve Davis, and Micky Cox.

"Everyone seems to be real enthusiastic about Spring Sing and I'm just so excited about it," said Michele Pullara.

Plans for the production are not final, but the performance dates are now set for March 28 and 29.

facts in focus

Horizons perform; substantial returns

The Horizons, a singing group who recently appeared on campus, collected a total of $3125, which is substantially more than they usually get during a performance, according to S.A. president Bill Fowler. The group would like to schedule another appearance here if there is enough student support, according to Fowler. Students who are interested in seeing the group again, should contact the S.A., Fowler said.

Football brochure wins top rating

The NAIA recently gave Harding's football brochure an All-American rating. The brochure, which is used by newspapers, public relations offices, and recruiting personnel, was edited by Stanley Green, director of publications and information. He was assisted by John McGee and Jim Ashley, student sports writers.

Plans formulate for '75 Lectureship

The Bible Lectureship committee has set a date and topic for the 1975 Lectureship. The topic, "They Being Dead Yet Speak," will deal with Biblical personalities like Moses and Abraham, according to Neale Pryor, chairman of the Lectureship committee.

Pryor said the date has been changed to October 8-11 so it would not conflict with a home football game.

Dates for annual Youth Forum set

March 28 and 29 are the dates for the eleventh annual Youth Forum. The theme for the forum will be "The Way Home." Plans are underway for lectures by James Woodroof, minister of the College Church of Christ, and for special entertainment including one night of Spring Sing which will be reserved for the high school visitors.

Miss Janet White

Miss Dibble Kennedy and Jerry Lewis

Two couples plan February weddings

White-Parham

Mr. and Mrs. Warren M. White of Marshall, Tex., announce the engagement and approaching marriage of their daughter, Janet Lee, to Jon Parham, son of Mr. and Mrs. Nat Parham of Memphis. Miss White is a business education graduate. While a student, she was a member of Theta Pi social club, SNEA, Campaigns Northeast, National Business Education Association and the American Studies Program. She is presently employed as a secretary in the business office.

Parham received a B.A. degree in general sciences from Harding last spring and is continuing pre-medical studies here. He is a former member of the A Cappella Chorus, Belles and Beaux, and past president of Omicron Delta Lambda Leadership Club. He is a member of the Pre-Med Club and a honorary member of Chi Sigma Alpha social club. He is presently employed at White County Memorial Hospital.

The afternoon ceremony will take place Feb. 15 at the Claude Rogers Lee Music Center.

Cox releases names of lecturers

Prominent speakers to highlight program

Congressman Ray Thornton and news commentator Paul Harvey are among this semester's scheduled American Studies speakers. The list of speakers was released recently by Dr. Billy Ray Cox, director of the American Studies program.

The next scheduled speaker is Gary North, editor of the Remnant Review. He will speak on February 13. One week later Henry Loeb will make a presentation. Loeb was mayor of Memphis from 1960-1963 and from 1968-1971. In the late 1960's, he was commissioner of public works in that city.

Ray Thornton, United States Congressman from the Fourth District in Arkansas, will be here on March 27. He is Chairman of the Harding Development Council.

On April 5, Paul Harvey, who is a well-known news analyst, commentator and author, will lecture. Besides being a television personality, Harvey is an author and a syndicated columnist.

Robert Bleiberg is scheduled to speak on April 10. Since 1959, Bleiberg has been the editor of Barron's National Business and Financial Weekly, a publication for businessmen.

Israil Kirzner, an Austrian economist, is the last scheduled speaker of the semester. He will speak on April 17.

Donald Tenser, professor of history at the University of Michigan spoke to the group last Thursday.
Gill ranks first among amateur riders

Student enjoys life as motocross racer

By Randy Kemp

Have you ever ridden 50 m.p.h. on one wheel or covered 60 feet in a jump? Have you ever been run over by a running 200-lb. machine? These are just a few of the thrills and dangers which confront Terry Gill, amateur motocross racer.

Gill, a freshman from Little Rock majoring in pre-engineering, races his Honda Elsinore 125 on weekends and through the summer on tracks throughout the state. He has been racing for over a year, and has been riding motorcycles for three and a half years.

Out of 20 races, Gill has won trophies in 17 events, including four for first place and four for second place.

According to Gill, his next race will be at Benton to compete against 30 or more professional racers.

Gill admits that there are some new problems to be faced by going professional. Because expert riders have more experience, the competition is much stiffer. But there are also advantages. In the expert class, money is awarded instead of trophies, and purses can sometimes add up to several thousands of dollars.

Although all are basically the same, each course, or track, is somewhat different, according to Gill. An average track is a closed circuit from one to two miles long.

Some obstacles along the course include ditches, holes, sand, bumps, jumps and sharp curves. Most of the rider's time is spent twisting, leaning, standing, and "using body English" as Gill calls it.

He has about $1,000 invested in his bike alone, in addition to more than $125 in his riding equipment, such as helmet, boots, padded gloves and pants, and mouthguard.

"It takes about $25 per week to race," Gill said. That money is spent on gas, oil, transportation and parts. Each race requires from $6 to $10 just to enter.

Gill's parents, who for several years forbade him to own a motorcycle because of the danger involved, are now almost used to the excitement of occasional bumps and spills.

Gill concludes that accidents are frequent, but he has never seriously injured. "It's kind of scary when you go over the handrails and land with the cycle on top of you," he said.

He is enthusiastic about motocross racing, and said, "This is one sport which hasn't been exploited. I have a lot of fun and meet some really great guys."

Oldroyd, Cox assume teaching duties

Becky Oldroyd

Christian College for two years before joining the navy. He received a B.A. in music from DePaul University in 1963, and his masters from Southern Methodist University in 1963. To 1966, Cox did post-graduate work toward a music-composition degree at North Texas State University.

Cox received a Masters of Library Science last year at Peabody University. Cox said that being named to the Harding faculty this semester was "an answer to his family's prayers." He said that his position as a librarian and an instructor in string instruments in the music department was "a complete gratification as far as utilizing all my education." Cox feels that Harding has an excellent music program and is excited about working in the department.

In the field of music, Cox's areas of special interest are the violin and the oboe. Cox studied violin with Sidney Author, the concert master of the Chicago Symphony, and oboe with Marcel Tabuteau, a work to renowned musician.

Cox's wife, Patricia, plays the violin, viola, and flute. They are living in Stonybrook and have three, Debra, Michael, and Rebecca.

Fishing and genealogy are Cox's interests outside of music and the library.

January 31, 1975

THE HARDING BISON, Searcy, Ark. 5

Terry Gill soars through the air in a recent motocross race. Gill ranks number one among amateur riders in Arkansas.
Business team attempts fourth victory

The 1975 Business Team will attempt on March 1 to win an unprecedented fourth victory in a row in the Intercollegiate Business Game sponsored by Emory University.

In order to accomplish this feat, the team, which is composed of veterans Bill Fowler, captain, and Phil Eubanks and new comers Matt Comotto, Cam Henderson, and Mike Emerson, must make a series of 12 decisions. Each of these decisions covers a hypothetical three month period and is based on conditions.

The game officially begins on January 1. Each week after that, until March 1, the team sends in two sets of decisions regarding the operation of their simulated company. The event is culminated in March when a total of 24 colleges and universities gather in Atlanta, Georgia for the final parts of the competition.

The schools are divided into four industries. Each of the industries sell identical products. This year the products are pocket calculators and digital alarm clocks.

Harding is in direct competition with the other five schools in its industry (Valdosta State College, Wake Forest University, Loyola College, Georgia Southern College, and Rochester Institute of Technology) and in indirect competition with the other 18 schools which include such prestigious names as Washington and Lee University and the College of William and Mary.

The schools are divided into four industries. Each of the industries sell identical products. This year the products are pocket calculators and digital alarm clocks.

The event is culminated in March when a total of 24 colleges and universities gather in Atlanta, Georgia for the final parts of the competition.

The schools are divided into four industries. Each of the industries sell identical products. This year the products are pocket calculators and digital alarm clocks.

Harding is in direct competition with the other five schools in its industry (Valdosta State College, Wake Forest University, Loyola College, Georgia Southern College, and Rochester Institute of Technology) and in indirect competition with the other 18 schools which include such prestigious names as Washington and Lee University and the College of William and Mary.

There are three major parts to the competition. The first part is the quantitative competition which counts 50 percent of the final result. In this area the company wants to end up in the best position after 12 rounds of competition.

The second area is the oral presentation and defense of strategy which counts 40 percent of the total. This is done at Emory and is judged by a panel composed of corporate executives and members of the faculty of Emory University Graduate Business School. The remaining 10 percent is based on an annual written report which is submitted to the judges.

According to Dr. David Burks, sponsor of the team, Harding is in an "excellent" position after the first three rounds of the competition.

Members of the Business Team are selected from majors in the business department by Dr. Burks and Dr. Billy Ray Cox, with the recommendations of the past year's team members. Dr. Burks said they look primarily for people who are "decision makers."

Higher Education

Even though this is not the ideal construction season workers have continued to make headway. Progress can be seen in the remodeling of the old science building (upper left), the bricking of the new girls dorm (lower right), and the concrete supports of the new gymnasium (lower right).
Bisons absorb sixth conference loss

Fighting to overcome an early 14-3 Hendrix Warrior lead, the Harding Bisons recovered, but fell short, 79-72, for a third straight conference loss. Harding fell to 1-6 in the league play and Hendrix went to 6-3.

After leading 14-3, Hendrix opened up a larger lead, 20-7, with 5:30 left in the slow moving first half on a basket by Dave Boston.

Harding, fighting to overcome the 15 point lead, outscored Hendrix 11-5 in the next 5:30 and cut the Hendrix lead to 24-20 when Tim Vick hit a field goal with 2:40 left in the half.

Hendrix and Harding battled with a 2:4 point interval for the remainder of the half with Hendrix having the edge, 38-34 at intermission. In the second half, Butch Gardner hit a three point play, knotting the score at 31-31 with 17:47 to go. Harding rallied off 11 more points to four for Hendrix, opening a nine point lead 43-34 on a basket by Gary Baker with 14:45 remaining. Baker and Gardner were the leading scorers for Harding, Gardner collecting 25 while Baker added 18.

Hendrix remained seven to nine points behind Harding until John Hardeman hit two of his 27 points, cutting Harding's lead to five, 64-59, remaining in the game.

Gradually closing the gap for Hendrix was Tom Poole, who put Hendrix on top to stay 58-53 with 7:17 left to go. Poole later hit four consecutive baskets, finishing with 20 and widening the Warrior lead to 71-64 with 1:50 remaining.

Hardeman and Ronnie Williams rounded out the scoring by tossing in six free throws in the final minute and a half. Ronnie Williams added two free throws.

Hendrix's hunting wonder, Kenny Hewitt, closed out the 1974-75 duck season on a happy note. Hewitt, even though missing a class here, and there, managed to bring home a total of 61 ducks for the entire season. Mr. Hewitt's goal for the 1975-76 season, classes of course permitting, is to break the 100 margin.

Our football tabulation staff of one has been busy compiling this year's all school ratings. Mike Bashford claims the distinguished honor of being declared the school's "King Fool" (Not fool) with Jimmy Buder, Tony Sned, Tom Jones and Doug White rounding out the top five. The rating procedure is a little different from that of last year. The challenger still must pay for the games played in the best of three game series. But this year any student has the right to challenge any one of the top five players in a title match. If any of the top five are defeated, please slip a piece of paper, signed by both players under the door of the Bisons office or through campus mail.

Alpha Tau, the perennial kings of volleyball on campus, this year won not only the large club A volleyball title, but also the B, C, and D titles. The only loss of the Alpha Tau A squad was at the hands of the perennial queens of volleyball on campus, Kappa Phi. Kappa Phi managed to overpower the men in their best of three game series.

Due to a heavy voter turnout, the all-school men's and women's air hockey and women's football ratings are not yet available. Our electronic computer with digital readout was completely over-worked by the four votes that were received last week. If any more of you fun-loving rascals could find the time to compile some lists (please limit your emotions to five names per category) for your choices of the school's top ten (ten) hockey and women's football players, we could get our over-worked punch card operator to come up with a verdict as to whom is number one.

Intramural Athletes of the Week

Men's — Freddy Dixon and Harry Hutchinson
Women's — Susan Byrd

By Matt Consella

Probably the most interesting fact concerning room 206 in the American Studies Building is not that it gets cleaned every day, but rather that Milt D. Tota, the great grandson of the phantom of the opera, has inscribed his name there 57 and two thirds times. The two-thirds times represents the occasion when Mr. Tota was neatly detected and therefore had to leave a partially completed inscription. As you are asking yourself what this little tidbit of irrelevant information has to do with sports, please don't forget to consider the possibility that the 57 and two thirds inscriptions may represent a single classroom inscription record, which indeed it does. Congratulations Mr. Tota, wherever you may be.

Harding's hunting wonder, Kenny Hewitt, closed out the 1974-75 duck season on a happy note. Hewitt, even though missing a class here, and there, managed to bring home a total of 61 ducks for the entire season. Mr. Hewitt's goal for the 1975-76 season, classes of course permitting, is to break the 100 margin.

The three votes in the basketball season represent a single classroom inscription record; asking yourself what this little tidbit of irrelevant information has to do with sports, please don't forget to consider the possibility that the 57 and two thirds inscriptions may represent a single classroom inscription record, which indeed it does. Congratulations Mr. Tota, wherever you may be.

Hendrix's hunting wonder, Kenny Hewitt, closed out the 1974-75 duck season on a happy note. Hewitt, even though missing a class here, and there, managed to bring home a total of 61 ducks for the entire season. Mr. Hewitt's goal for the 1975-76 season, classes of course permitting, is to break the 100 margin.

Our football tabulation staff of one has been busy compiling this year's all school ratings. Mike Bashford claims the distinguished honor of being declared the school's "King Fool" (Not fool) with Jimmy Buder, Tony Sned, Tom Jones and Doug White rounding out the top five. The rating procedure is a little different from that of last year. The challenger still must pay for the games played in the best of three game series. But this year any student has the right to challenge any one of the top five players in a title match. If any of the top five are defeated, please slip a piece of paper, signed by both players under the door of the Bisons office or through campus mail.
Crawford first Kodak All-American awaits professional football draft

Harding's mammoth defensive tackle, Barney Crawford, joined a select Bison elite as he was tabbed for All-American honors for his play in the 1974 football season.

The 223-pound Mountain Home native attained first string All-American status in the Kodak Division II ratings while garnering second string honors in the NAIA poll.

The quick tackle was a bulwark in the Bison defense with the Herd allowing only 30 points total in their final five AIC contests. Crawford's finest day came, perhaps, in the Bison homecoming battle with Arkansas Tech, as he sliced through the Wonderboy line three times to nail the quarterback for losses totaling 27 yards.

He was subsequently named the NAIA "Linebacker of the Week." The first Harding gridder ever to receive such an honor. Crawford has lettered four times for Harding and served as co-captain during the past campaign. In 1972, he received the Most Valuable Lineman award in the Cowboy Bowl, which the Bisons won, 36-27 over Langston, Tex. Last year, he received All-AIC honors and was named for NAIA All-American honors.

Crawford's four-year career at Harding has been a highly productive one and his departure leaves the team defense with quite a rebuilding chore. As one coach put it, "How do you replace the irreplaceable?"

When asked if he would like a shot at professional football, the burly lineman affirmed, "I'd sure like to give it a try." With the large number of NFL scouts that were present at numerous Bison games, he just might get his chance.

Only two other Harding players ever made first team All-American honors. Jerry Cook, an offensive guard, made it in 1970, while quarterback Tom Ed Gordon was picked in 1973. Crawford is the first Bison gridder to be selected for Kodak honors.

Heavy participation delays club volleyball finals

Volleyball has been completed except for the final game between Kirei and Theta Psi for the C team championship. Due to the over abundance of teams playing B and C, it was necessary to finish the remaining games during the first portion of the spring semester.

Kappa Phi and Toefebt captured their respective major and minor league championships before the Christmas recess. Both teams went through their entire season with an undefeated record. Kappa Phi behind the excellent playing of the Knoph and Foshee-sister combinations had no problem in proving to all of their opponents that they were the champions. After acquiring three excellent freshmen volleyball players, Toefebt surprised the majority of the minor league with their attainment of the crown.

The accomplishment of the B team championship was a long, hard struggle. With all of the women's clubs participating in the division a variety of skills were displayed. Kappa Phi finally emerged on top after a rough road throughout the entire season. Shantih played an excellent game in the finals, but lost 15-11, 17-15, and 15-8 in a very close third game to Kappa Phi.

The C division has been exciting from the onset between Kirei and Theta Psi. All clubs who joined in had fun and enjoyment from the experience.

Susan Krita shows off the basket in an attempt to boost her team, Shantih. In the "B" team championship Shantih lost to Kappa Phi.
