Dear John:

Just time for a few lines, but they are necessary. I have already been checking on the "Idaho mess" that you mentioned. The truth is that only several of the congregations in the Magic Valley have "pulled out"---and this at the insistence of a man who is trying to destroy Geo. DeHoff. He is the man who split the church in Albion, and in fact wound up on the small end of the split!

I have access to Two months of reading material (at least it would take me that long to read it.) about this thing. J. Foy Guin, Jr. is on the board out there, is council for the college, and also personal council for Geo. He is not convinced by hearsay. He has the goods. In fact, I may Photostat some material to send to you, that you may keep the record straight up there. Must close for now. More later.

Fraternally,
