Mr. & Mrs. John Allen Chalk
542 North Washington
Cookeville, Tennessee

Dear Mr. and Mrs. Chalk:

We hope that you are interested in becoming a member of our state-wide council described in the enclosed folder and NEWSLETTER. The Council has a voluntary membership of 700 Tennesseans, and plans to increase this to 1000 during 1964. We seek members interested in bringing about better opportunities for all citizens through informing ourselves and our communities of local and state-wide issues.

Cookeville and Putnam County have led the state in forming a unified school system and achieving its acceptance. With your successful experience, we hope that you will join us in promoting and encouraging other counties to adopt similar plans. Through our state office, we are able to assist small communities as well as cities in increasing opportunities in education, employment and job training.

I would be delighted to talk to you in Cookeville, or to respond by letter to any questions that you have.

Sincerely yours,

Katherine Jones
Executive Director
