Lawmakers Weigh Bill To Fight Theft At Universities

The newest exhibit features interactive displays where students can safely explore the dangers and consequences of downloading. The Obama administration is considering a bill that would require federally funded colleges and universities to take stronger measures to deter illegal downloading, but many campuses may be resistant to such measures. The letter recognizes the problem and acknowledges the need for change.

**Violence In Southern Iraq**

Violence exploded in cities across southern Iraq as U.S. and Iraqi forces clashed with militant followers of radical Shiite cleric Moqtada Sadr this week. The Iraqi army, under the leadership of Prime Minister Nouri Maliki, is trying to retake Basra, the largest city in Southern Iraq. The ability of Maliki’s forces to assert government control over areas loyal to Sadr. The violence stems from a statement Sadrist for “end dictatorships.” If the attacks against his followers did not stop, Maliki is ready to take the war to Sadr’s militia, known as the Mahdi Army, to surrender and to lead the way to security of the city over to the end of the U.S. military mission there.

**Florida Argonises For Slavery**

The Florida legislature revised a formal apology for slavery laws in the 18th century that led to the enslavement of African slaves on Wednesday. The resolution to apologize was approved unanimously through both the Senate and the House. The measure involved a reading of the slave codes passed in 1852, which called for whippings and even0

**New Leadership Possible For Zimbabwe**

Zimbabwean president Robert Mugabe, who has been in control of the South African nation for the past 28 years, faces considerable blow in Saturday’s national election as two rival candidates gain momentum. Mugabe has been accused of rigging past elections, charges he has denied and even now supports of rival candidates are not sure what is the future of their nation.

**Gibson Goes After Guitar Hero**

Gibson Guitar Corp, the Nashville-based guitar manufacturer, has filed a lawsuit against what it calls "the popular video game "Guitar Hero," claiming that the game violates Gibson's 1999 patent on devices that simulate musical performance.

FLOOD: River Overflows

Tagline: Preserving Lives, Protecting Property

The sudden release of water from a nearby dam caused widespread flooding in the area. The local government and emergency services worked tirelessly to rescue those affected and prevent property damage.

A SUCCESS STORY

One family, the Smiths, relied on the community's support to recover from the flood. They received assistance from neighbors, government agencies, and relief organizations, which helped them rebuild their home and resume their lives.

PIRACY: Groups Debate Prevalence Of Illegal Downloading

Tagline: Protecting Copyright, Empowering Creators

As digital technologies continue to evolve, so does the debate over copyright and plagiarism. While some argue for strict enforcement, others advocate for a more flexible approach.

A STORY

A young musician, Alex, struggled to make a living from his music. He considered piracy to be theft, but saw no other way to distribute his work. However, after interviewing Alex, the journalist realized the complexity of the issue and highlighted the need for a balanced solution.

ECONOMIC IMPACT

The financial crisis has had a significant impact on the economy. Many businesses have struggled to stay afloat, while others have thrived by embracing new technologies and procedures.

A STORY

A small business owner, Sarah, had to adapt her strategy to survive the crisis. She shifted her focus to online sales, which allowed her to maintain her business and reach a new audience.
Senior Uses Personal Art As Witnessing Tool

"Visual journey" that uses visual elements along a path of devotional thoughts to help people come to right relationship and to have specific feelings," he said.

Granberg said he plans on working in an artistic ministry and internationally in the future. "I will probably do that at least through the art school," he said.

Though right now I feel that is one of the most difficult mission fields in the world.

Some of the countries Granberg is considering working with are Pakistan, India, and Saudi Arabia as well as the Philippines and Australia.

Even though his major art history, he continues all of his work in the arts.

"I would be willing to self-sacrifice all of my week," he said.

Though with his minor in visual performance, so he could work in the arts and as a lifeguard.

"Granberg said he plans on making a lifeguard on duty is very important.

"It is also important that he finds students who have experience in aquatics either as a lifeguard, swim coach or someone who has a lot of experience in it," he said.

Granberg said he hopes to help other students who have taken his course.

"I am here to create what he calls a visual journey that uses visual elements along a path of devotional thoughts to help people come to right relationship and to have specific feelings," he said.

Msiska Brings Experience From National Level

By CHRISTOPHER O’DELL

The Harding University men’s rugby team has been the team to beat in the country, and for good reason. The team recently competed in the World Cup of Rugby, and Head Coach Crowell said he was proud of the team’s performance.

“Msiska has been a great asset to our team, and his experience has been invaluable,” Crowell said. “He has shown great leadership qualities, and his presence on the field has been a positive one.”

His experience has helped the team succeed, and he has been a key contributor to their success.

Depth Sparks Successful Start For Tennis Teams

By CHRISTOPHER O’DELL

The Bison tennis team has been off to a strong start this season, and Head Coach Green said he is proud of the team’s performance.

“We have a lot of depth on our team, and I believe that has helped us start the season strong,” Green said. “We have a lot of young talent, and I believe that is why we have been successful.”

The team’s success has been a reflection of their hard work and dedication to the sport.

What On Earth Happened To America’s Pastime?

By CHRISTOPHER O’DELL

The summertime staple of America’s pastime, baseball, has been struggling in recent years. The game has seen a decline in attendance, and many believe it is because of the high costs associated with playing the sport.

“The high costs associated with playing baseball have made it unaffordable for many people,” Crowell said. “I believe that is why we have seen a decline in attendance.”

However, there are those who believe that the game is still alive and well. They argue that the game is a part of America’s culture, and it is important to keep it alive.

“We cannot let baseball die out,” Green said. “It is a part of our history, and we must do something to keep it going.”

The game of baseball is an American institution, and it is important to keep it alive for future generations to enjoy.

**Baseball Evokes Memories**

I am 14 years old and I've been playing baseball now for 10 years. This past weekend, I went 3-for-3. It's been a while since I've been that explosive behind the dish. I'm feeling good about my approach.

**Kicking Up Dust**

Barry D. Beachman is the season's top catcher. He has a .350 average in the field this season. Beachman's fielding has been crucial to the team's success. His leadership and determination have motivated his teammates to play their best. Beachman is a shining example of what it means to be a leader on and off the field. His dedication to the sport is inspiring. Beachman's focus on improving his skills and contributing to the team has earned him the respect and admiration of his teammates and coaches. He is a true asset to the team and a valuable part of the community.

African-American Preacher's Comments Foster Racism

Scotty Cimmery

W eighed down by the American political system's perception of race, both on the political stage and in the media, African-American preachers must be careful in their use of rhetorical devices. Such care is especially important given the recent history of a controversial preacher, who has been accused of promoting racial division.

The controversial preacher, let's call him 'Reverend Wright,' has made headlines recently with his comments about race in America. In one speech, Wright stated, "The white man has always been the oppressor. He has taken the best for himself and given the worst to us." These words have sparked controversy and debate across the country.

Wright's comments reflect the long history of white supremacy and racism in American society. The civil rights movement, led by figures such as Martin Luther King Jr., fought against these systems of oppression. Yet, even today, we see remnants of these injustices in our daily lives.

As Americans, we must be vigilant in our use of language and rhetoric, especially in times of tension and division. The words we choose can have a significant impact on the way others perceive and respond to societal issues.

In conclusion, it is important to recognize the power of language and rhetoric in shaping our collective understanding of race and identity. As we move forward, let us strive to use language that promotes understanding, unity, and respect for all individuals, regardless of race.

Günther is a master at delivering his lines with conviction and sincerity, making him an influential speaker in the field of philosophy.

Günther’s passion for exploring the complexities of human behavior and societal dynamics is evident in his elegant delivery, which is both thought-provoking and engaging. He is a rare talent who has the ability to captivate an audience, leaving them with a deeper understanding of the world and the role they play within it.

Günther’s commitment to excellence is matched only by his dedication to the pursuit of knowledge and the betterment of society. His insights are both profound and practical, offering valuable guidance for navigating the challenges of our time.

In summary, Günther is an exceptional speaker whose ceaseless pursuit of truth and his ability to communicate it in a manner that inspires and enlightens make him a true leader in the realm of thought and discourse.
David McCallum’s role in the television show "Fargo," paired with Tommy Lee Jones, was deemed a good match for the character of Moss. "It’s a great look into the futility of violence, and yet somehow it still makes you think," says McCallum. "The original plot has been changed from the original book, but the main idea is still the same. It’s more of a character study about the town of Big Fish, Texas, and the ideas of good and evil." McCallum played the role of Moss in the film, a Vietnam veteran, who finds himself struggling to adjust to civilian life. He is portrayed as a man of few words, but with a strong sense of justice and honor. The character is a blend of the old and the new, with a unique perspective on the world around him.

Let’s Hear It For ‘Horton’

By JOELCH GREEN

IT’S just a week to show time, and the Blu-Ray release of "Horton Hears A Who!" is right around the corner. The movie, directed by Dr. Seuss, is a remix of his classic children’s book, and it features the voice work of Jim Carrey, along with an impressive cast.

Carrey, who also directed the film, says he was drawn to the role because of its challenges. "The character is a mix of emotions," he says. "He’s got to be strong and funny, but also vulnerable. It’s a difficult role to play, but I think we’ve got the right balance." The voice work is said to be spot on, and the animation is stunning.

Other notable voice actors include Forest Whitaker, as the Grinch; Graham Elliot, as the Mayor of Whoville; and Isla Fisher, as Horton’s love interest. The film is set against a backdrop of the Grinch’s plan to destroy Who-ville, and it’s up to Horton to save the day.

The movie is set to hit theaters on March 7th, and it’s already generating buzz. "It’s a really sweet story," says one reviewer. "The message is clear, and the animation is beautiful." The film is aimed at children of all ages, and it’s sure to be a hit.

Dr. Todd Watt will be providing Invisalign treatment consultations to answer your questions about Invisalign treatments, the clear way to straighten teeth.
