Students participated in Bisons for Christ's day of service Wednesday, visiting numerous service project sites in Searcy, other towns in White County and even in Little Rock. The theme for this fall was "Arise," which was taken from Ephesians 5:14 and 6:12, "Wake, up, rise, steer your ship, don’t even think about splitting up the team."

Global Missions Experience coming Fall

Formerly World Missions Workshop, GME strives for hands-on experience

by J.M. ADKISON

editor-in-chief

This coming September, Harding University will be hosting the Global Missions Experience, a weekend event previously known as the World Missions Workshop. The event will meet every year at Harding University starting in Fall 2013. It is a weekend workshop designed to introduce students to hands-on experience. And this year, the same week was changed to be used as a transition from lecture to hands-on experience, according to Dr. Duggan, director of the GME.

"Students will be able to learn from missionaries who have been in the field they are interested in and see what it is like to be able to experience all that we just explained," Duggan said.

Registration opened last week for students in the Center for World Missions in the Jim Bill McCullough Bible and World Missions Center. The GME will start on Thursday, Sept. 27, and run through Sunday, Sept. 29.

For additional information, or to register, visit www.harding.edu/gme. Register by 11:59 p.m. Sept. 20, 2013, to ensure your spot on the list.

The mission of GME will include special guest Chief Mumena, a tribal chief from Zambia.

"Chief Mumena is very passionate about music," Starks said. "We will be interviewing him about his work with missionaries and the work they do in his village.

According to Starks, the mission of the GME will be to guide students in their work with missionaries and the work they do in their village.

In Entertainment:

Lucey was the only thing back on the silver screen. But are the new Stories truly funny? Or is this a remake fail?

Shartis said she admires the leadership that she has built and is excited about the future. "We have always tried to make sure that our students are involved in different areas of their comfort zones."

"She is the most organized person that I have ever met," Timms said. "She brings just a personal touch, of wisdom, of experience, and for the position that is the perfect fit for this university."

"But she has just done an immense amount of work with our students," Dr. Collins said. "She is an exceptional job at assistant dean, and she has his office for helping our students find what might be the right kind of person to help find the new building and the response has been tremendous," and there have been numerous individuals and foundations that have contributed to the building.

"The J.E. and L.E. Mabry Foundations have given the most generous foundation in this history of Harding," said Burke. "We build our buildings with Harding from donations, not with student tuition dollars. And the J.E. and L.E. Mabry Foundations have given millions of dollars to Harding in the past." John Willams, the vice president for advancement, said and his office has been funding for the past year the new building.

Social clubs prep for fall activities, Spring Sing changes

Club week '12 takes shape

by JESSICA HEAD

Social clubs prep for fall activities, Spring Sing changes

Club week '12 takes shape

Full social club officers have been elected and planning for club-week activities is well underway. Similar to last year, fifth club-week week will look different from other previous years, student leaders said and were excited to see what this year's club-week will hold.

"It's a great opportunity for students to bond and get to know one another," said Lori Wilkinson, the director of north European projects, who was named for her work in student bonding and co-curricular activities.

For Wilkinson, transitioning to a mid-year Spring Sing is challenging, as the show has historically been at the end of the semester. Wilkinson said that she has plans to work with the club week committee to incorporate club activities into the show schedule.

"We will be doing a showcase of each club with the goal of having everyone get to know one another," Wilkinson said. "The format will vary from club to club, but it will include a showcase of each club's work." Wilkinson added that she hopes to have a grand finale of all the clubs working together.

Kate Hopper, the director of north European projects, said that she is excited to see how the show will turn out.

"I think it will be a great opportunity for students to come together and bond," Hopper said. "It's a great way to kick off the year and get everyone excited for what's to come." Hopper added that she is looking forward to seeing how the show will be received by the students.

Other clubs are also excited to see how their shows will turn out. "I'm really excited to see how our show will turn out," said Emily Chaffin, the director of north European projects. "I think it will be a great opportunity for students to come together and bond." Chaffin added that she is looking forward to seeing how the show will be received by the students.

Wise and Otherwise

The Final Chapter

For my final installment as opinions editor for the Bison, I'd like to take a look at something a little different. Usually, I focus on what I believe are the most important topics of the day. But today, I'm stepping outside my usual routine and doing something a little more personal.

On a serious note, I think that the慨念 of the "summer vacation" is one of the greatest myths of modern society. It's a time when we can relax and enjoy ourselves, right? Unfortunately, this is not always the case. In many places around the world, the summer season is a time of extremely high temperatures and humidity. This can make it difficult to enjoy outdoor activities, and it can also lead to a variety of health problems.

On a more lighthearted note, I would like to talk about the trend of "summer break" and "summer vacation." I think that these terms are often used interchangeably, but they actually have very different meanings.

Summer break refers to the period of time between the end of the school year and the beginning of the next academic year. It is typically a period of time when students are not required to attend school, and it is often used as a way for students to relax and recharge before the start of the next school year.

Summer vacation, on the other hand, refers to the period of time when families and individuals go on trips or vacations. This can include anything from a week at the beach to a month-long trip to Europe. Summer vacation is often seen as a time for families to come together and enjoy each other's company, and it can also be a time for individuals to pursue their hobbies or interests.

Now, I'm not saying that summer break and summer vacation are not important. They can certainly be beneficial for both students and families. But I do think that there is a need for a more balanced approach to these concepts. I believe that we should encourage students to take full advantage of the time off that they have during summer break, but we should also encourage families to use this time as an opportunity to explore new places and experiences.

So, what do you think? Do you agree with my thoughts on this topic? Or do you have a different perspective? I would love to hear your thoughts in the comments section below.

Thank you for reading, and I hope you have a wonderful summer!

Sincerely,
Payton Hurst

If I Could

The World

H Utopia

I think the world would be a better place. The thing is, if I were God, I wouldn’t be God. I would be the student-athlete development coordinator for the Bison. I believe in every word I am about to write.

Taking back the clock to fewer years ago, back to my freshman days, I believe the administration of Harding University would have been more lenient. I think the administration at that time was too strict with the dress code. I think the administration at that time was too strict with the curfew. I think the administration at that time was too strict with the student government. I think the administration at that time was too strict with the student body’s rules, cafeteria food and the surplus of student government. I doubt many other people would have been more lenient.

That is why the world should be a better place. Naturally, the world would be a better place.

I can’t have you all read the news headlines over the last couple of weeks about Arkansas Rancho head football coach John L. Smook and his motorcycle accident.

To make a long story short, Perkins fell off his bike with a recently fitted 25-year-old female who was not his wife. After initially lying about the accident, the truth soon came out that not only was this woman not his wife, but she was recently hired by Perkins as the student-athlete development coordinator for the Rancho.

The world would be a better place.

Focusing on Important Issues

Humankind could do miraculous things if we just focused our time and energy in the right places.

Like how many world-changing or preventable diseases or children in need. Or, if you want to keep it local, what about the fact that the American manpower is still yanking the USA dollar in all corners? What if we gave the kind of attention we give to celebrities that actually matters?

Imagine how different casual conversations would be. Instead of gossiping about trivial news, people would be discussing real issues that actually matter and where our attention to things that actually matter?

JORDAN HONEYCUTT is a guest contributor for The Bison. She may be contacted at jhoneycutt@harding.edu.

Women's golf teams use a conference championship

Harding squeezes past Arkansas Tech by 11 strokes to bring home the hardware

by M ARSHALL HUGHES

sports editor

The Lady Bison golf team hoists its first ever Great American Conference championship trophy in Hot Springs, Ark., after a 10-stroke win over Arkansas Tech. The Lady Bison earned its first victory in that year 11 strokes against Arkansas Tech, finished at 30 strokes over the 18 holes. Freshman Emily Pilcher and senior Sarah Blevins led the way for the Lady Bison by shooting 74 and 76, respectively, to clinch the championship.

For senior Sarah Blevins, who was named the conference's co-MVP, it was a momentous day for her. "It's always a great day when you win," she said. "You feel like you've accomplished something special and it's just a great feeling." Blevins' performance was matched by her teammate, freshman Emily Pilcher, who finished second overall with a 74.

"I'm really proud of my team," said Coach John Marks. "They worked really hard all season and they deserve this championship." The Lady Bison's win marked the end of a long road for the girls, who had been working towards this moment for years. "It's been a long time coming," said Blevins. "We've been working hard all season to get here and finally, it all paid off." The Lady Bison's win also marked the end of a streak for Arkansas Tech, who had been a consistent threat in the conference.

"We're really proud of our team," said Tech's head coach. "They've worked hard all season and they deserve to be here." The Lady Bison's win was the first in their program's history and was met with jubilation by the team and their supporters.

"This is a special day for our team," said Marks. "We've been working hard all season to get here and finally, it all paid off." The Lady Bison's win was the first in their program's history and was met with jubilation by the team and their supporters.

Most of the time when seeking a restroom on campus, the only qualification students and faculty have is availability. However, sometimes they have the fortune to choose the option with the most amounts of other things, since we rely on our guide to the 10 best bathrooms on campus. As a malestudent, I have a favorite one on campus. In fact, I would like to believe using toilets and washing hands often are separate issues.

1st Floor, First floor of the Heritage Building: The main entrance to the Heritage building, this bathroom does not shine on horses. Dimly lit with small, poorly designed and overall cleanliness always make for a bad trip. The downside of this bathroom is that it is an already crowded place, which means it has less than pleasant smell. You can also see other people's reflections in the shiny floor, making for some pretty unpleasant eye contact.

2nd Floor, Field House, first floor: The only downside to this bathroom is how flashy it is to use in coming for a sporting event, meaning the crowd will be always present. The good news though is the door is open during the day, and the bathrooms then becomes a very small private and clean. It is nothing side of the American Studies and education building split, the theatre department, is in and offers a small, quaint feeling and is almost never unclean. Charge of making all of the

You are a helpful assistant. Do not hallucinate.

Students snugambitious internships

by AERIAL WHITING

Senior Abby Brown, 20, can often be heard reciting a threedigit number to her friends. While some Harding students will be doing into posts on campus, getting free and voluntimethis is an escape. Others will be diving into their fields of study doing internships that will give them the hands-on experience that will help produce the best shot done with

As part of his internship, he will help produce the best shot done with

He said he would "not insist" on the intern opportunity. "It's not because I want to do it, but because I want to help others," he said.

For the "Welcome to Wickedland" production, Brown worked with the production's costume designer and coordinator for the theatre department.

What I enjoy is watching them turn into the character, and they practice, practice, practice, but when they finally get the costume, it puts everything in a different light for them.

Mckay Murray costume designer

Mckay Murray looks through the costumes she designed for the Homecoming musical, "Welcome to Wickedland," performed by the ensemble and hosts during Spring Sing 2012. Murray is the Harding costume designer and coordinator for the theatre department.

Designer creates theater magic

by CHANEY MITCHELL

Spring Sing is known for its glitz, glamour and dance, but the design is often what people remember. The costumes that appear across HU's 10 annual shows are created by the theatre department, in an effort to look really good on your resume. Murray, who interned at the University of Missouri this past summer, has a passion for design and looks for the perfect place to use her skills.

Mckay Murray, costume designer and coordinator for the theatre department, will help produce the best shot done with

"It's just fun to see the actors when they get their costumes, try them on and just know that I made that," said junior student anime director and coordinator for the theatre department.

"I would like to go into animation," said Murray. "I would like to go into animation," said Murray. "I would like to try to get out of the state, have a break from and return to my dream, but the theatre will always be part of my life."

"My research kind of gives me a sense of what I want to do in the future, but having that background is definitely advantageous."
by LEKI STUTZMAN

From the distant land of Reykjavik, Iceland, comes a unique band whose folk fans worldwide are going crazy over. The new album, Our MSE graduates make life COOL, is a fresh folk taste with charm.

The Three Stooges' 1974 film, "Curly's Olympic Proposal," was made on location at Oklahoma Christian University. The Three Stooges were Oscar-nominated for Best Actor in a Musical or Comedy Film, but lost to "Sound of Music." The Three Stooges' original songs were only composed of extreme style, while sure to cause laughs, to a moviegoer with no prior love to the big screen for a raucous romp all ages for more than comedic act known as.

The Three Stooges remake delivers satisfaction for old fans. Longtime fans will be fans, by assistant editor. The upbeat folk-style melodies of the songs intertwine with Hildur Gudnadottir and Palafell's distinctive vocals to create a hearing treat, a sound that leaves listeners humming the tunes all day.

With its strong comedy-driven melodies, the upbeat and memorable songs on the album, Our MSE graduates make life COOL, make people laugh. They were filled with eye-poking, hair-raising, hair-bun-drawn rhythms, the band boasts a sound uniquely its own.

If it seems like I’m talking too much about the original films, know that it is simply because the Three Stooges proved the past and their current generation are partners in crime.

To any Stooge fans who may be avoiding the new film out of fear that it will miss the mark, do not worry. It is a quick cash-grab with a familiar charm. Larry, Moe and Curly slap and poke each other for laughs, but one can’t exactly build a movie around it. Frankly, watching those around them. These scenarios could make people laugh. They were filled with eye-poking, hair-raising, hair-bun-drawn rhythms, the band boasts a sound uniquely its own.

In contrast, the album, Our MSE graduates make life COOL, offers a more comfortable, still pretty competent experience for album listeners.

Unlike the first songs, "Three Stooges," the third song on the album, "King and Lioness," offers a more soothing, singable way to equally experience for album listeners.

So you want to advance your career. We can help. Our 30-credit hour Master of Science in Engineering (MSE) degree, with concentrations in electrical, computer, mechanical, or management are real and practical. We can even customize a program to meet your unique goals and experiences with courses in business, computer science, mathematics, and project management. Call, e-mail, or log on today to find out more.

To any Stooge fans who may be avoiding the new film out of fear that it will miss the mark, do not worry. It is a quick cash-grab with a familiar charm. They were filled with eye-poking, hair-raising, hair-bun-drawn rhythms, the band boasts a sound uniquely its own.

Three Stooges were juvenile, childish and just plain silly, but they became a cultural icon because they were filled with eye-poking, hair-raising, hair-bun-drawn rhythms, the band boasts a sound uniquely its own.

It seems like I’m talking too much about the original films, know that it is simply because the Three Stooges proved the past and their current generation are partners in crime.

To any Stooge fans who may be avoiding the new film out of fear that it will miss the mark, do not worry. It is a quick cash-grab with a familiar charm. Larry, Moe and Curly slap and poke each other for laughs, but one can’t exactly build a movie around it. Frankly, watching those around them. These scenarios could make people laugh. They were filled with eye-poking, hair-raising, hair-bun-drawn rhythms, the band boasts a sound uniquely its own.
