Dear Mr. Birdwell:

I have used John A. Dickson's New Analytical Bible for years. Not only does my personal family have two copies of it for our personal study of God's word, but I have urged countless other families and individuals to buy the Dickson Bible.

There are many Bibles published today that purport to be "study" helps. Frankly, many of them fall short of giving the kind of aid that the New Analytical Bible provides. Every feature of the Dickson Bible has a reason and that makes it highly usable.

From my experience with adults both in and out of the church who do not know God's word I have to conclude that the men who have prepared the Dickson Bible are serious students of it themselves! Keep up the good work of helping people study God's word for themselves.

Sincerely yours,

John Allen Chalk
