Dr. Leighton Sissom
Chairman, Department of Mechanical Engineering
Tennessee Technological University
Cookeville, Tennessee

Dear Leighton:

Thank you so much for the pamphlet The Story of Power. I have found it extremely helpful. It was so kind of you to fulfill my request last week and to get this to me as quickly as you did.

I hope that the sermon will be worth all the effort you expended and the effort others have gone to in providing me material in this area.

I send you and the family my best regards. Our family is in good health.

Fraternally yours,

John Allen Chalk
Radio Speaker

7/19/67

Dear John Allen,

The best non-technical information on "power" is contained in the enclosed booklet. You may want to look at p. 45 first. This may not be what you need, but it runs from definitions to modern examples.

There is no need to return the booklet. I have requested a replacement from G.M.

Let me know if I can be of further assistance.

Warmest personal regards to you and your family.

Sincerely yours,
Leighton
