Dear John Allen:

Things are moving and never have I received such encouraging letters as are coming. In almost all, appreciation is not shown just to me but to all those of ACTION and this makes me so very happy. For years I have dreamed of a paper that was not just mine and now we have one and it is really on its way. Orders are coming and it will grow very fast from here on if we keep giving the people some meat to chew on which is not spoiled by lack of wisdom on our part.

Son, you hit me again right between the eyes on this better schedule deal. It almost has to be this way due to about five different parts others play - copy girls, printer, mailing company - and over them I have no control. The end of each month is the only time they can do it but it has to be in time to be mailed during the month.

When I go to Dallas in May I want to talk to Alan about having it printed there and if we can work it out we will get changes as this worked out next December when we do not have an issue. It has now become a "business" and almost more than I can handle. There is hardly a minute I can get away from it any more.

I know that you are right but it is just one of those things I cannot correct as quickly as I might like.

Remember us to Sue and love to you both.

Sincerely,

Jim

Every person has more right to hear the Gospel once than any one person has to hear it twice
