

THIS BOOK IS DEDICATED TO \_\_\_\_\_  
**JIM MILLER**

---

In 2015 the student body was given the opportunity to decide which member of the faculty they wished to dedicate the yearbook to. After many votes were cast and counted, the students chose to dedicate the 2015 Petit Jean Yearbook to Dr. Jim Miller.

While he has a positive influence across campus, Miller is best-known for his work in the Department of Communication. As the Chairman of the department, he plays a role in the education of each student that walks through the doors. He is an assistant professor

of journalism and is the sponsor for the Society of Professional Journalists.

Despite his busy schedule, he is always open to discussions with students about not only school but also their personal well-being. The success of the students is a priority to Miller and that is apparent in all of his work.

We are proud to dedicate this book full of memories to someone who made so many of them possible. Thank you to Dr. Miller for all of your hard work and for striving to make us not only better students but also better people.
