Friends help each other meet daily challenges

Photo by Mark Kinonen

Above: Several students play a game of Ultimate Frisbee on the front lawn. The front lawn became a popular location for friends to play many different sports. Left: Andrew Sisco, freshman, takes time out during the day to chat with a friend. Many students spent time conversing on the center of campus throughout the year.

"A friend loves at all times, and a brother is born for adversity."

—Proverbs 17:17

Most students who come to Harding their freshman year come alone. They do not have any relatives or any friends from home to spend their time with. All they really have are themselves and God.

Harding, however, provides activities at the beginning of each school year that allow opportunities for these new students to meet others and start building close friendships. Harding is known for its notorious manner of creating friendships that last a lifetime.

The friends that one makes while a student at Harding usually last longer than just the years spent on campus.

Friendships developed at this University are built on a Christian foundation, and thus can withstand the troubling times life can throw at them.

Friends help each other keep their focus on what is important and lift each other's spirits when they are down.

One of the challenges of building friendships at Harding, however, is trying to keep in touch with each other after each year draws to an end. In the book of Proverbs chapter 17 and verse 17 it says, "A friend loves at all times, and a brother is born for adversity."

The purpose of friendships is to encourage and uplift. Harding friendships have a special quality that other friendships may not have. These friendships are here to stay and ready to help each other overcome whatever challenges lie ahead.

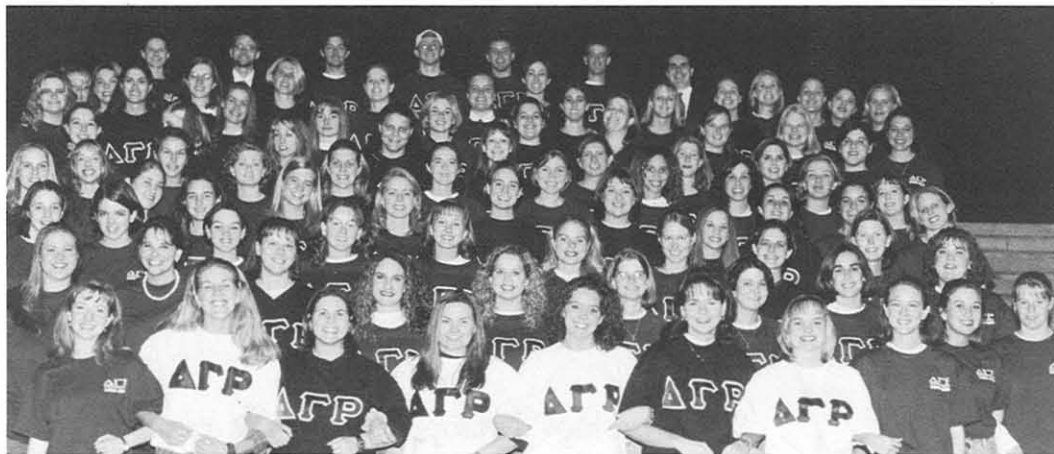

No matter what the distance or what the obstacle, Harding friendships will last a lifetime.

Though critics say Russian President Boris Yeltsin should step down because of his health, the president insisted that he was in good shape and would stay in office until his term ends in the summer of 2000. The 68 year old man had been hospitalized many times during his second term and was ill again at the year's end with high fever and the flu.

The Saint Louis Rams defeated the Tennessee Titans 23-16 on Jan. 30, 2000, in what was arguably the most exciting finish ever in a Super Bowl. After the Rams took the lead, Tennessee drove the field, with Steve McNair's pass to Kevin Dyson coming up just a yard short of tying the game as time expired.

Bill Bradley, former pro basketball star and New Jersey senator, entered the Presidential race in early 1999. Although early polls showed him in a distant second place behind frontrunner Al Gore, he proved to be a strong campaigner and an impressive fundraiser, raising over \$18 million by the end of September.

Wilt Chamberlain was considered by many to be the greatest basketball player ever. He died in 1999 at the age of 63 of an apparent heart attack. Chamberlain took a marvelous athletic ability and a tremendous size (7-foot-1 and 290 pounds) and made the most of it. His NBA accomplishments are remarkable. He not only was the only player in the history of the game to score 100 points in a game, but he also had the three highest scoring games in NBA history.

Hillary Rodham Clinton earned praise for standing by her husband during President Clinton's impeachment trial toward the end of his second term. She proved to be an ambitious and politically savvy First Lady, which fueled speculation that she would run for the Senate, representing New York in the 2000 elections. She had the credentials, including a degree from Yale Law School.

Hurricane Floyd charged up the East Coast with fearsome winds and drenching rain. More than 8,000 members of the National Guard in Fla., Ga., South Carolina, North Carolina and Virginia were mobilized to help communities recover from the destruction that cost an estimated \$1.3 billion. With winds hitting 155 mph, Floyd closed schools and airports and even postponed a meeting of the United Nations Security Council in New York.

MEETING THE *Challenge*

As the past year brought a momentous change for the world with the new millennium, the students, faculty and staff of Harding worked vigorously to forge for themselves and those around them a brighter future and a better school.

From the chartering of a new women's social club to the creation of the College of Art and Humanities, to the construction of the new men's and women's dormitories, Harding's campus witnessed the achievement of current goals and the formation of new ones throughout the year.

It was goals such as these — made both collectively and individually — that brought texture and triumph to Harding's year, and it is our spirit of hope and earnest effort that guarantee this institution's future.

Although Harding's work is never done, its constant progress and ever-rising standards will continue to lead Harding University to success.

Roddy Mote, assistant dean of students, chats with Licole Williams, freshman, in his office. Mote was appointed dean of men this spring and resigned his duties as football coach and instructor.

Stacy Threlkeld and Sarah Shade, juniors, look at pictures and visit with Ava Conley, Spanish instructor, outside her office. Small classroom settings and Christian faculty members gave Harding students the opportunity to develop close relationships with their teachers.

Kelly Odell, senior, and Jamey Jones, sophomore, address the members of Omega Lambda Chi during a Monday night meeting, January 24. The 1999-2000 school year marked the charter of the new women's club, which had been in the works since last spring.

Jeanette Wilson, Sarah Cothron, Nicole Moreland, Tina Zwahr and Shannon Fonville, juniors, engage in a snowball fight in front of the construction sight of the new women's dorm. The addition of the new women's dorm, as well as a new men's, will be two of the many changes that Harding will experience in the new millennium.

Bring me men to match my mountains
Bring me men to match my plains —
Men with empires in their purpose
And new eras in their brains.

Bring me men to match my prairies,
Men to match my inland seas,
Men whose thought shall pave a
highway

Up to ampler destinies,
Pioneers to clear thought's marshlands
And to cleanse old error's pen;
Bring me men to match my
mountains —

Bring me men!
