This book captures more than the physical bond we have experienced here at Harding. It represents intentional connections God has made in our lives. It represents moments and memories that were a part of the ultimate plan designed to glorify our magnificent Creator. Amongst our team, our mission

has been to collect and capture this stage in our lives through pictures, words and designs in order to show what an amazing gift it is to be surrounded by God's love everyday. I will forever be grateful for the connections that God has brought into my life through Harding University.
